Welcome to One Night Ultimate Werewolf Game Two!

After the first game, a lot of lessons have been learned. This game will move much faster and will have more certain deadlines than the previous games. We've also added in two roles that were not in ONUW Game 1: The Doppelganger and the Witch. More on those later.

How to Play (In case you don't already know)

One Night Ultimate Werewolf is a variant on the classic game of Mafia or Werewolf. Play begins with each player being assigned a role, and the "Going to sleep" for the Night phase. (Which will last approximately 35 hours.) During this time, anyone with a night action will PM RetroMG to submit their night action. (For more information on the various night actions, see "Roles" below.

After the Night phase ends, the Day phase begins. At this point, players have approximately 37 hours to politely determine which players are werewolves.

At the end of the Day Phase, Players have 24 hours to submit their final vote to RetroMG by PM through NeoGAF with the words **VOTE: <USERNAME>**.

ONLY YOUR FIRST VOTE WILL BE COUNTED, SO VOTE CAREFULLY.

The person with the most votes will be "Executed."
Players who are aligned with the Werewolves win if the werewolves are not discovered. Players who are aligned with the Village win if a Werewolf is found and executed.

The Center

Three roles go in the “Center” at the beginning of the game, and are not played by active players. These roles can be viewed and swapped in and out by certain players during the night phase, but are inactive during the day phase.

The three cards in the center will be referred to as Cards 1, 2, or 3.

If both Werewolves somehow wind up in the center, the villagers only win if they deduce this and decide unanimously not to lynch anyone by entering votes of **VOTE: NO LYNCH**.

An example of gameplay can be seen here: <https://www.youtube.com/watch?v=j-CWXDf0gG4>

(Note: The game in the video does not include all the roles from the current game.)

Roles

Here are the roles at play in this round of ONUW.
(Listed in the order of their night action.)

Doppelganger: The Doppelganger is the first to awaken, and may take the form of any role in the current game. When the Doppelganger receives the Role PM, he or she must immediately decide which player's role to take, and what their night action will be. The night action is performed **immediately** if the Doppelganger chooses a role with an active night action. (Troublemaker, Robber, etc.) If the Doppelganger chooses a role that receives information, (Werewolves, Masons, Insomniac,) he/she will receive it at the same time that the other roles do. **The Doppelganger is aligned with whatever role he or she chooses.**

Werewolves: At the beginning of the night action phase, the two werewolves are revealed to one another. They win if neither of the werewolves are killed during the day phase.

Minion: The minion wakes up third, and is informed who the werewolves are. The Minion is aligned with the **Werewolves**, and wins if neither werewolf is killed – **even if he is killed instead.** The Werewolves are not told the identity of the Minion.

Mason: Next to wake up are the two Masons. They are aligned with the **Village**. They will see each other, and know who to trust.

Seer: The Seer wakes up, and can either look at one other player's card, or two cards from the center. She is aligned with the **Village**.

Robber: The Robber wakes up, and exchanges his role with another player. The Robber is informed what role he has received. The player he swaps with is not informed. He is aligned with the **Village**.

Witch: The Witch wakes up, and takes one card from the center, and swaps it with another player, or with her own card. At the time that this action is done, the Witch is told what role she has given to the player, but not what that player was

previously. The Witch is aligned with the **Village**

Troublemaker: The Troublemaker wakes up, and swaps two players cards. She is not informed what roles are swapped. Neither player is informed during the night that their roles have been swapped. He is aligned with the **Village**.

Drunk: The Drunk wakes up, and swaps his card with a card from the center. He is not informed what his new card is. He is aligned with the **Village**.

Insomniac: The Insomniac wakes up last in the night action phase, and finds out what her current role is – to see if she's still the insomniac, or has become something else. She is aligned with the **Village**.

Hunter: The hunter does not wake up during the night phase. If he is killed during the day phase, the person who he voted for is automatically killed. He is aligned with the **Village**.

Tanner: The Tanner does not wake up during the night phase. The Tanner hates his job, hates his village, and hates his life. He wins if he can convince the village to kill him. **He is not aligned with anybody.**

Villager: There may be up to three villagers. The Villager doesn't wake up during the night phase, and has no abilities – His vote is his power. He is aligned with the **Village**.

4 palmer_v1★ 07-27-2015 02:42 PM PT (US)	Good luck! Remember, we have a 100% win rate in games where we've killed Karkador.
5 RetroMG★ 07-27-2015 02:47 PM PT (US)	We are now in the night phase Please PM your night actions to RetroMG. The night phase will end at 6:00 PM Pacific Time on Wednesday, July 29th, 2015
6 RetroMG★ 07-27-2015 02:47 PM PT (US)	@Palmer: Kark's not in this game, so... screwed? Edited 07-27-2015 02:47 PM
7 palmer_v1★ 07-27-2015 02:50 PM PT (US)	Oh damn... I guess just kill Lord of Castamere instead.
8 Lord of Castamere★ 07-27-2015 02:53 PM PT (US)	0-3 already ;_; Edit: Um pretty sure you're wrong about the editing Retro. *cough* Edited 07-27-2015 03:18 PM
9 swamped 07-27-2015 03:01 PM PT (US)	Retro: you got me in the player list twice lol.
10 RetroMG★ 07-27-2015	@swamped - Always something, isn't it? I just saw it while I was updating pronouns and corrected it.

03:02 PM PT (US)	
11 RetroMG★ 07-27-2015 03:03 PM PT (US)	One more thing: Unlike traditional GAF Mafia, editing is allowed, because QT will not let you edit if someone else has posted after you.
12 Fireblend★ 07-27-2015 03:05 PM PT (US)	Can't wait for ONUW#3, with the new Juggler role: The juggler is the last to awaken. He choses one of the cards from the center pile, eats it, and then all other cards are re-shuffled. No one is informed of their new role. RetroMG laughs maniacally in the distance.
13 Sorian★ 07-27-2015 03:12 PM PT (US)	That juggler role sounds fantastic. Make it so. Edit: Oh yeah, you can still edit things even after a new post. Edited 07-27-2015 03:29 PM
14 Lord of Castamere★ 07-27-2015 03:22 PM PT (US)	/m8 Wrong about the editing. That only works if you don't have an account.
15 RetroMG★ 07-27-2015 03:37 PM PT (US)	Then don't edit. :) Easy enough. @Fireblend - You know me so well already. ;) I actually considered putting in Village Idiot instead of the Witch. The VI makes all players pass their cards one space to the left or right. (In our case, I would have gone with alphabetical or reverse alphabetical order.) But that seemed a little bit much for game two. An interesting question just came up - The Doppelganger takes on the alignment of whatever role he or she chooses. So, if the Doppelganger becomes a werewolf, and is killed, that is still a town victory. Edited 07-27-2015 03:46 PM
16 Sawneeks★ 07-27-2015 03:48 PM PT (US)	Village idiot sounds amazing. Imagine having a doppelganger pick village idiot and everyone moving over twice. The amount of chaos would be beautiful.
17 Sorian★ 07-27-2015 03:57 PM PT (US)	It would only be good if one village idiot moved the cards one way and then the other village idiot chose the other direction. That would be fun to figure out.
18 CzarTim 07-27-2015	hi all

04:42 PM PT (US)	
19 swamped 07-27-2015 05:18 PM PT (US)	Soooooooo so far everyone seems to be Insomniacs...GO TO BED people!
20 swamped 07-27-2015 05:21 PM PT (US)	I am kidding btw lol...
21 Sawneeks★ 07-27-2015 06:05 PM PT (US)	you can't tell me what to do. >:O
22 CzarTim 07-27-2015 06:23 PM PT (US)	barry isn't in this game, who are we supposed to vote for.
23 palmer_v1★ 07-27-2015 06:31 PM PT (US)	/m15 That's the balance of the game. You only have to kill 1 Wolf to win, so the more there are, the better your odds! It's why it doesn't matter if a game ends up heavily stacked one way or the other. It makes the eventual vote much trickier.
24 Ourobolus 07-27-2015 06:40 PM PT (US)	Hurry up and kill the Tanner so I can start my game! :D
25 Seath 07-27-2015 07:17 PM PT (US)	Hey all!
26 Fireblend 07-27-2015 07:59 PM PT (US)	Greeting everyone in a friendly tone is such as werewolf move. VOTE: Seath. jk
27 Sawneeks★ 07-27-2015 08:21 PM PT (US)	well we found the werewolf. gg everyone, good work. high fives all-around.
28 Seath 07-27-2015	I'm confused... Who are we evicting?

09:59 PM PT (US)	
29 Seath 07-27-2015 10:01 PM PT (US)	What the game is already over?
30 swamped 07-27-2015 10:35 PM PT (US)	@Seath we just 'evicted' you dude. Apparently all we needed was Fireblend's super vote XD
31 Roytheone 07-28-2015 01:44 AM PT (US)	Hey group, I just wanted to pop in to notify you guys that I live in a European time zone, namely GMT +2. This means that when the day time will begin, it will be 3:00 AM here so I will be asleep. The soonest I will be able to share my role will be about 7 hours later, so if it takes a while before I respond with my role it is because of timezone nonsense. Also keep in mind that if you ask me something directly, it could take a while for me to respond because it could very likely be the middle of the night here in the Netherlands. Thought you would want to know this.
32 nin1000 07-28-2015 02:22 AM PT (US)	Same here GMT +1 Berlin timezone. i will try to wake up early in order to chime in ;)
33 Fireblend★ 07-28-2015 06:58 AM PT (US)	I was kidding Seath, the game hasn't begun >_> Also Roytheone, the "I'm in europe" excuse is such a werewolf move. VOTE: Roytheone. nin1000 is probably a Tanner. Edited 07-28-2015 06:58 AM
34 RetroMG★ 07-28-2015 08:48 AM PT (US)	Last game, I was having trouble telling who was who - and I had the cheat sheet! I think next game will have an even shorter night period. Everyone has gotten back to me already. However, I promised no shenanigans with the deadlines this game, so talk amongst yourselves. Edited 07-28-2015 09:20 AM
35 swamped 07-28-2015 11:53 AM PT (US)	Sooooo the new threads for the Mafia games look really great. Can't wait for LMQ's to go up.
36 palmer_v1★ 07-28-2015 12:27 PM PT (US)	Why isn't anyone dead yet?
37 Sorian★	I think I died a few hours ago. Where's the ONUW dead thread?

40 Hornets 07-28-2015 01:42 PM PT (US)	Oh yeah I can post here HELLO PEOPLE
41 roytheone 07-28-2015 02:05 PM PT (US)	Another person that greets everybody in a friendly tone, I guess we found our second Wolf you guys!
42 Sorian★ 07-28-2015 02:20 PM PT (US)	Welp, that was an easy game. Let's pack it up.
43 Hornets 07-28-2015 03:41 PM PT (US)	Define "friendly"
44 RetroMG★ 07-28-2015 07:17 PM PT (US)	Correction to an earlier role definition: The Doppelganger chooses a player to take the role of. Therefore, he or she can be any role in the current game. Thanks for your patience, guys. Apparently 36 hours is still too long for the night phase, so next game I'll keep it to 12-24. I promised that I wouldn't mess with the deadlines this time, though. Edited 07-28-2015 07:18 PM
45 Fireblend 07-28-2015 07:25 PM PT (US)	Yeah, this game really benefits from shorter waiting periods and active players. I hope everyone's still on board and we don't have any deserters by the time the day begins!
46 RetroMG★ 07-28-2015 07:30 PM PT (US)	I don't think we will. I'm nervous about making the night phase too short because people have lives, but I keep getting all the responses back within about eight hours max.
47	Obviously, I'm the insomniac, I'm falling asleep over here!

Sorian★ 07-28-2015 08:19 PM PT (US)	
48 swamped 07-28-2015 09:03 PM PT (US)	Maybe if we got all the players to post in here with a confirmation we could move the day up?
49 Sorian★ 07-28-2015 09:11 PM PT (US)	I'm fine with moving it up, I know that can mess people up though so we probably need unanimous vote on that.
50 swamped 07-28-2015 09:22 PM PT (US)	Yeah, we'd need 12/12 people to reply, and actually, by the time we get that it will probably be the official start time of the game lol
51 roytheone 07-28-2015 09:43 PM PT (US)	Indeed. Night phase is not only for people to do their actions, it is also useful to start making plans on how you will role claim, what you will and will not reveal etc. I'm fine with moving the start up, but we defiantly need everyone to agree to make that happen.
52 Lord of Castamere★ 07-28-2015 09:44 PM PT (US)	I'm fine with it being moved up. Doesn't matter either way to me.
53 CzarTim 07-28-2015 10:01 PM PT (US)	im good with whatever
54 kingkitty 07-29-2015 12:54 AM PT (US)	whatever floats people's boats
55 Nin1000 07-29-2015 03:45 AM PT (US)	Floats whatever whichever poeples boats
56 swamped 07-29-2015 06:59 AM PT (US)	So that's 7/12! When do we start again? I have a feeling is soon...
57	Night phase ends in about 10 hours, I get the feeling if the other five do end up

Sorian★ 07-29-2015 07:45 AM PT (US)	posting, we will probably only end the phase a few hours early anyway.
58 Zippedpinhead 07-29-2015 08:52 AM PT (US)	end early!
59 Fireblend★ 07-29-2015 08:56 AM PT (US)	Sure I'm up for waking up sooner.
60 swamped 07-29-2015 09:09 AM PT (US)	9/12! If Sawneeks, Kingkitty and RNH agree, maybe we can start earlier.
61 Fireblend★ 07-29-2015 09:13 AM PT (US)	If we reach 11/12 maybe the doppelganger can mimic the person who's missing and agree on their behalf. :P Edited 07-29-2015 09:20 AM
62 Sawneeks★ 07-29-2015 09:34 AM PT (US)	I'm cool with starting early!
63 Roytheone 07-29-2015 09:41 AM PT (US)	/m60 kingkitty already said he is ok with starting early, so with sawneeks on board we only need hornets.
64 Sorian★ 07-29-2015 09:42 AM PT (US)	You're all gonna start and work is going to get busy for me and then I'll just laugh.
65 Sawneeks★ 07-29-2015 09:54 AM PT (US)	/m64 Exactly how I feel haha. Been really quiet all week but the second we start things will kick up. Always happens.
66 Sorian★ 07-29-2015 09:55 AM PT (US)	I should probably learn to do that quote thing. Do I just go: /m65 Edit: Yup! Cool. Edited 07-29-2015 09:55 AM
67	alright, I am going to try to upgrade my private PC to windows 10, so if my next

68 Sawneeks★ 07-29-2015 10:51 AM PT (US)	RIP Roy. Another brave soul claimed by Windows 10.
69 RetroMG★ 07-29-2015 11:01 AM PT (US)	Hey guys, I just saw all this. (I've been trying to install a dishwasher.) Since, by my count, 10 of 12 have agreed to start early, I'll do role responses right away and start the day shortly.
70 RetroMG★ 07-29-2015 11:11 AM PT (US)	All right, all role responses have been sent. The day phase has begun. The day phase will close at 7am Pacific Friday morning, and voting will occur at that time. If I do not respond to any questions, please PM me. Undergoing emergency household repairs. (Read: My wife will not go another day without a working dishwasher.)
71 CzarTim★ 07-29-2015 11:14 AM PT (US)	Hi I'm phone posting what's up
72 CzarTim★ 07-29-2015 11:16 AM PT (US)	Fireblend, best friend, how are you?
73 CzarTim★ 07-29-2015 11:17 AM PT (US)	You guys begged for the day to start early and look at you not posting. For shame.
74 Zipped 07-29-2015 11:17 AM PT (US)	Oh boy here we go! I'll start, I had a night time action. I'll confirm what I did after more people post.

75 Sorian★ 07-29-2015 11:18 AM PT (US)	Well, I guess I don't mind starting this off. I was the insomniac but I woke up as a mason. I assume since I wasn't a mason to begin with, I don't know who my partner is.
76 CzarTim★ 07-29-2015 11:19 AM PT (US)	/m75 uh oh...
77 CzarTim★ 07-29-2015 11:20 AM PT (US)	Zipp you swapped me didn't you?
78 RetroMG★ 07-29-2015 11:20 AM PT (US)	OK, everyone who had a night action should have received a PM'd response, (if not, PM me,) and everyone has recieved a PM saying the game started early. Go for it! EDIT: Just realized one role response PM is missing. Sending now. EDIT2: Okay, fixed. Edited 07-29-2015 11:28 AM
79 swamped 07-29-2015 11:27 AM PT (US)	I was the Troublemaker. should add that my action was successful. Edited 07-29-2015 11:30 AM
80 CzarTim★ 07-29-2015 11:30 AM PT (US)	I was masons with fire. Apparently one of us was switched though. I'm about to be without access for a bit, so enjoy figuring that mess out. If I got Barry'd then lol.
81 Sorian★ 07-29-2015 11:32 AM PT (US)	/m79 As someone new to this, can you explain to me how an action would be unsuccessful? Just if you had lost your troublemaker role before it got to your turn?
82 RetroMG★ 07-29-2015 11:35 AM PT (US)	I was just debating whether or not to clarify that, so thanks for helping me make the decision, Sorian. Everyone's night actions are successful. Even if your role is switched before you take your turn, you still perform your role. (Since you have no way of knowing.) There IS a role that can stop a night action from happening, but it's not in this game. It's in the Daybreak expansion, and I'm sure we'll introduce it eventually. For now, don't worry about whether or not your actions were successful. Also, everyone who had a night action got a PM confirmation, whether or not they received information as part of the action, saying that their action was successfully performed. Just me being friendly. :)

83 Soriant★ 07-29-2015 11:38 AM PT (US)	I had been wondering that from the start but I wasn't sure if it was a good question to ask or not. That'll help me work through this once more people start posting.
84 RetroMG★ 07-29-2015 11:39 AM PT (US)	It's definitely a good question, and something I should probably add to the instructions for future games. Thanks for asking!
85 Fireblend★ 07-29-2015 11:52 AM PT (US)	lol CzarTim, not keeping any cards close to your chest I see. I can corroborate CzarTim's story, he was my mason brother. Now according to Soriant I'm either the insomniac or he is, so if Swampy will confirm she switched either of us with Soriant, us three will be off the hook (unless a second troublemaker comes forward, in which case it would have been great not to reveal we were masons in the first place. But did I get asked about that? Nooooo). Also, thanks to the doppelganger there could be 2 troublemakers. Any seer want to come forward? Here's a rundown of what has gone down: Soriant - Insomniac -> Mason Fireblend - Mason -> ??? (mason/insomniac if soriant is telling the truth) CzarTim - Mason -> ??? (mason/insomniac if soriant is telling the truth) Swampy - Troublemaker Zipped - Performed a night action So far all of these statements are uncontested. Edited 07-29-2015 11:55 AM
86 Hornets 07-29-2015 11:55 AM PT (US)	Interesting move Soriant Tanner, are you? Or minion? Since there's only one insomniac and that was, and still is, moi
87 roytheone★ 07-29-2015 11:57 AM PT (US)	Allright, Windows 10 is still installing so a quick mobile post: I am or was the witch. I will not yet say what I did, but I didn't switch myself with a center card.
88 Fireblend★ 07-29-2015 11:59 AM PT (US)	Soriant - Insomniac -> Mason (CONTRADICTS HORNETS - doppelganger?) Fireblend - Mason -> ??? 89 Soriant★	/m86

07-29-2015 11:59 AM PT (US)	You appear to be forgetting there's a new role in this game.
90 Fireblend★ 07-29-2015 12:02 PM PT (US)	/m89 are you now claiming to be the doppleganger? Why did you not mention being it right from the start then if you're a villager?
91 Hornets 07-29-2015 12:02 PM PT (US)	...good point. Well then.
92 Soriant★ 07-29-2015 12:04 PM PT (US)	/m90 I am not claiming have started as the doppelganger but until that person confirms their existence then we always have to assume there is one more role than there actually is. So Hornet and I aren't contradicting each other quite yet.
93 CzarTim★ 07-29-2015 12:05 PM PT (US)	Sorry fire.
94 Fireblend★ 07-29-2015 12:07 PM PT (US)	/m92 there is if neither of you claim to be the doppleganger, which there's no reason not to claim if you were :P
95 RetroMG★ 07-29-2015 12:08 PM PT (US)	We have now come to my favorite part of the game: Retro sits back and enjoys the confusion.
96 CzarTim★ 07-29-2015 12:08 PM PT (US)	/m92 what even is this post. Don't doppelganger go first? Are you a doppelganger or not?
97 swamped 07-29-2015 12:11 PM PT (US)	I will elaborate further on the actions I took once a certain person posts.
98 Soriant★ 07-29-2015 12:13 PM PT (US)	/m94 I mean, I can think of a few cases, the most obvious being that one of us could have woken up to find we were not aligned with the village. /m96 Doppelganger goes first and then also does whatever job action they chose as well.

	I am not a doppelganger but if I was and then chose to become insomniac, I would still wake up to see what I actually was. The only real point of my post was to point out that until we know for sure, there might be two insomniac roles now.
99 CzarTim★ 07-29-2015 12:15 PM PT (US)	Oh I see, gotcha.
100 Fireblend★ 07-29-2015 12:21 PM PT (US)	So Sorian, you say you're an insomniac *and* not the doppelganger. From the way Hornets phrased his counter-claim, he isn't claiming to be the doppelganger either, so there's an inconsistency there. Or are you (Sorian) also un-claiming being the insomniac? Edited 07-29-2015 12:21 PM
101 CzarTim★ 07-29-2015 12:24 PM PT (US)	No he's saying the doppelganger chose insomniac and then someone else swapped it with him, I think.
102 Sorian★ 07-29-2015 12:24 PM PT (US)	/m100 Yes, I am stating that my original role PM was insomniac.
103 CzarTim★ 07-29-2015 12:24 PM PT (US)	oh, well there goes that.
104 Sorian★ 07-29-2015 12:25 PM PT (US)	/m101 While that could have happened to someone else, that did not happen with me.
105 CzarTim★ 07-29-2015 12:25 PM PT (US)	RNH?
106 Hornets 07-29-2015 12:26 PM PT (US)	Yeah, I'm straight up insomniac. I actually forgot to check what roles are in play, hence my forgetting of the doppelganger. Now I'm just going to wait for more roleclaims to roll in
107 CzarTim★ 07-29-2015 12:28 PM PT (US)	Yeah that's a hard contradiction then. tbh kinda believe RNH more.
108 Sorian★ 07-29-2015	/m107 Agreed (on the contradiction piece of the post lol)

12:30 PM PT (US)	Can't dispute that one of us is lying if we are both claiming to have received insomniac from the start.
109 Fireblend★ 07-29-2015 12:30 PM PT (US)	Ok, so: Both Hornets and Sorian are claiming to be insomniacs. Both claim they weren't originally dopplegangers, so there's no way both could have started out as insomniacs. Now, the easiest way to solve this is as follows: Sorian claims he woke up a Mason. Me and CzarTim were the masons. So if the troublemaker will come forward (Swamped?) and confirm they switched either me or Tim with Sorian, we can verify or dispute the claim. Throw in the possibility of a second troublemaker for good measure since the doppleganger is unaccounted for, and that's another way Sorian can dodge if Swamped says she didn't do that switch. Edited 07-29-2015 12:31 PM
110 CzarTim★ 07-29-2015 12:35 PM PT (US)	I'm going to guess swamped didn't swap us since she said she was waiting for a person to post and all three of us have. So where's that doppelganger?
111 Roytheone 07-29-2015 12:36 PM PT (US)	Alright, windows 10 successfully installed! So it is now time for some more clarification: I did switch someones role with a central card. I now know that persons new role as long as someone else didn't switch it again after my action, and his old role is in the middle, unless taken by the drunk. I will reveal my action after I made sure that: A) i wasnt switched. B) that person wasn't switched again after my action.
112 Fireblend★ 07-29-2015 12:38 PM PT (US)	/m110 Eh, that's not definitive. Swamped might be waiting for a second troublemaker to come forward. I don't particularly care about the doppleganger atm. My guess is they will reveal themselves in time if they're village, or if not they will keep silent and roleclaim something else, in which case we'll probably catch them in the lie. There's also the possibility that there is no doppleganger, considering there's 3 center cards. Edited 07-29-2015 12:38 PM
113 CzarTim★ 07-29-2015 12:40 PM PT (US)	swamped would never swap me. She'd just say we're in cahoots and claim werewolf.
114 Sorian★ 07-29-2015 12:41 PM PT (US)	/m111 Just for my own clarification here, this makes you the witch? And you don't know what role you put to the center?
115 Fireblend★ 07-29-2015	/m114 yeah, Roy claimed witch some posts ago.

12:42 PM PT (US)	
116 Roytheone 07-29-2015 12:43 PM PT (US)	/m114 , yes, I am the witch, I already claimed in the first daytime post I made. And also yes, I only know the role I picked from the center and gave to the person, I DO NOT know the role i took away from the person and put back into the center.
117 Soriana★ 07-29-2015 12:45 PM PT (US)	He did, just saw that again, I'm sorry. I was more interested in making sure I understood the witch's power right though.
118 Sawneeks★ 07-29-2015 12:46 PM PT (US)	I can confirm I am the Seer but I'm not going to reveal what card, or cards, I saw during the night until more people come forward.
119 Roytheone 07-29-2015 12:51 PM PT (US)	/m118 , alright sawneeks, if you are telling the truth, we should be able to confirm each other claims if you looked at the center cards, because your action is before mine.
120 swamped 07-29-2015 12:53 PM PT (US)	The thing is, I swapped Soriana with someone else, who hasn't posted yet. So there's a long list of possible liars already...will have to think more - I should actually be working but this is too fun. /m113 Lol!!!
121 Roytheone 07-29-2015 12:54 PM PT (US)	Well, unless of course you choose to look at the other 2 cards i didn't pick to give to the player, that would be unfortunate.
122 Soriana★ 07-29-2015 12:56 PM PT (US)	I was just re-reading the doppelganger rules again (I know, I'm sorry I keep going back to that one, it has me the most worried because it's like a freaking book), it might be worth keeping in mind that if the doppel chooses someone who has an action, they do it immediately, so before anyone actually receives information or gets to do their own night time action. I don't think that actually helps with any current contradictions but it might be worth noting.
123 Roytheone 07-29-2015 12:56 PM PT (US)	/m120 , alright, i am still trying to fully understand the doubleganger: he or she will become a fully functional version of that character right? So it is impossible that the person you switched soriana with is the doubleganger, because other masons should have seen the new, third mason right?
124 Fireblend★ 07-29-2015 12:58 PM PT (US)	/m120 Oooh, so you are telling us there's no way you swapped Soriana with a Mason since both of us are accounted for (and there isn't a third mason or we would have been alerted). That contradicts Soriana's account too. Which would be hilarious if Soriana has been lying to us and now figures he might be on the opposite team.

	(What if Swamped and Sorian are in on it though, and that makes us think Swamped Barrylocke'd someone so that Sorian can point towards that someone? Hmmm...) /m123 Correct. There is no third mason. Edited 07-29-2015 01:03 PM
125 Roytheone 07-29-2015 01:03 PM PT (US)	Alright, so swamped switched sorian with either seath/nin/lord/kitty , and we dont know the claims yet of zipped, seath, nin, lord and kitty. I will keep on sitting on my information for now. Proceed.
126 Fireblend★ 07-29-2015 01:07 PM PT (US)	Gotta get back to work. Here's a quick summary of where we stand right now. Sorian - Insomniac -> Mason (CONTRADICTS HORNETS) See: /m109 Hornets - Insomniac -> Insomniac (CONTRADICTS SORIAN) Fireblend - Mason -> mason/insomniac if Sorian is telling the truth CzarTim - Mason -> mason/insomniac if Sorian is telling the truth Swamped - Troublemaker - Swapped Sorian with someone who hasn't posted (CONTRADICTS SORIAN) See /m120 /m124 Zipped - Performed a night action Roytheone - Witch - Switched the central card with another person's (not his). See: /m111 Sawneeks - Seer No one has claimed doppleganger yet.
127 Roytheone 07-29-2015 01:07 PM PT (US)	Also, i want to add that the information I have is VERY valuable.
128 Zippedpinhead 07-29-2015 01:11 PM PT (US)	as part of my role, I will confirm that Swamped made trouble last night... so whatever she did actually happened.
129 Soriant★ 07-29-2015 01:12 PM PT (US)	/m124 I agree, it's impossible there is a third mason. It's worth keeping in mind though that by the time troublemaker got to me, it's possible that Czar and Fire weren't the two masons.
130 Sawneeks★ 07-29-2015 01:14 PM PT (US)	/m127 Hopefully more people roll claim soon. Very interested to see where this all goes. Also maybe Retro can clear this up but does the Doppelganger go first before everyone else in the night phase? I know in face-to-face ONUW Werewolves do their stuff first, followed by minion, Masons, Seer, etc, etc, with Insomniac going last.
131 swamped 07-29-2015	/m124 OR both you and CzarTim are werewolves and we haven't yet heard from the second real mason. It's a possibility.

01:17 PM PT (US)	
132 Fireblend★ 07-29-2015 01:19 PM PT (US)	/m130 nevermind. See Retro's post above for explanation on doppelganger actions. /m131 That's correct too. That'd be a very risky claim to do right at the beginning of the game though. It's highly unlikely both mason cards would be in the center so that someone couldn't challenge us. Edited 07-29-2015 01:44 PM
133 Lord of Castamere★ 07-29-2015 01:20 PM PT (US)	Just woke up. I'll up my first post ready soon.
134 Sawneeks★ 07-29-2015 01:23 PM PT (US)	/m132 So if the Doppelganger became a new Werewolf/Mason they would not be informed who the others are? Or would they?
135 Fireblend★ 07-29-2015 01:24 PM PT (US)	/m134 Nevermind, see post above this one. Edited 07-29-2015 01:25 PM
136 Sorian★ 07-29-2015 01:24 PM PT (US)	/m134 They would. It says they get information at the same time as everyone else of that role. So all 3 werewolves/masons would see each other.
137 Zippedpinhead 07-29-2015 01:26 PM PT (US)	/m134 If the doppelganger became a werewolf, minion or isomniac I can only imagine that they would get the information at the same time.
138 Sawneeks★ 07-29-2015 01:26 PM PT (US)	/m134 Hm. Okay, thank you.
139 Sawneeks★ 07-29-2015 01:30 PM PT (US)	I hope this game's Doppelganger picked Villager. It would make this much easier.
140 Sorian★ 07-29-2015 01:32 PM PT (US)	/m139 Where's the fun in that though? Also mildly surprised no one has claimed villager yet.
141 Zippedpinhead	Ok I will fully role claim. I was the Robber, (so my action came after whatever actions the doppelganger did or did not do) and at that point I robbed Swamped

07-29-2015 01:32 PM PT (US)	blind. I then became the troublemaker (and I must admit the flavor text for this was pretty neat) and she unknowingly became the robber.
142 roytheone★ 07-29-2015 01:33 PM PT (US)	There is only one villager this time, so claiming villager is a lot more risky than last game.
143 RetroMG 07-29-2015 01:43 PM PT (US)	Clarification on Dopplegangers: If the Doppel becomes a Werewolf, Minion, or a Mason, it wakes up with the other wolves/minions/masons and receives the same information that the others do. As such, the other wolves/minions/masons would also be made aware of the player. If the Doppel becomes a Robber/Troublemaker/Witch/Drunk/Seer, they do their action before anyone else. This does mean that a Wolf or Mason may wake up incorrectly because they don't know better. Them's the breaks. If the Doppel becomes an Insomniac, it receives a PM at the end of the night letting it know if any switches have occurred. If the Doppel becomes a Hunter/Tanner/Villager, it does not do a night action, as it would have none. Edited 07-29-2015 01:44 PM
144 Sawneeks★ 07-29-2015 01:46 PM PT (US)	/m143 Okay, that makes a lot more sense especially with that second part. Thanks Retro!
145 roytheone★ 07-29-2015 01:49 PM PT (US)	Alright, question retro, what happens if the doubleganger is one of the central cards and gets picked by, for example, the drunk. What will his/her win condition then be?
146 Sorian★ 07-29-2015 01:51 PM PT (US)	/m145 The don't become a card in the middle, they just pick a role to duplicate. That job they picked would also still be sitting in the middle so a drunk getting it would not affect the doppel in any way. The doppelganger is on the team of whatever he ends up with at the end of the night, just like anyone else. So, a Mason could wake up to see other Masons but not actually be a Mason themselves anymore? Edited 07-29-2015 01:52 PM
147 Lord of Castamere★ 07-29-2015 01:53 PM PT (US)	So yeah, I got my role message, and surprisingly I got the Doppleganger. At that point, I got giddy thinking of all the horrible things I could do. Alas, I really wanted to win. Horrible things are pretty risky, you know. As much fun as 2 Tanners sounded, I didn't want the stress. I thought Town would give me better odds in the end. So, I decided on a Seer as my role. Two Seers have better odds of hitting a Werewolf, no? Well sadly, I didn't hit a Werewolf... but I did get the Minion. KingKitty is the Minion. Sorry man, bad luck.
148 roytheone★ 07-29-2015	/m146 ah, so the doubleganger will always be given to a player? It can not start in one of the central card positions?

01:54 PM PT (US)	
149 Sawneeks★ 07-29-2015 01:54 PM PT (US)	/m146 If I'm understanding it correctly; yes, that's exactly how it would go if a Troublemaker/Robber/Witch switched them.

151 RetroMG 07-29-2015 01:58 PM PT (US)	@Roy - My understanding is that the Doppelganger defaults to Villager, so it would not change.
152 Sorian★ 07-29-2015 01:58 PM PT (US)	/m148 Huh, actually I misunderstood your question the first time. Now that I think about it, you raise a really good question. I don't think the doppel HAS to go to a player so I don't know that one. /m149 That would solve some issues we seem to be having but..... /m147 A new challenger appears
153 RetroMG★ 07-29-2015 02:00 PM PT (US)	Doppelganger can be a middle card, but if it's pulled by the drunk (or whatever,) it's ability would not be triggered. Basically, it'd be like pulling a villager card. If a troublemaker switches an active Doppelganger who has chosen a role, the other player just gets the Doppel-Role. EDIT: At least, that's my understanding and how I'm running it. I'll research it, but that's the rule for this game. EDIT2: That last post is supposed to be "defaults to Village" as in the alignment, not "defaults to villager" as in the role. I can't edit it because I wasn't signed in on this computer when I posted it. Edited 07-29-2015 02:03 PM
154 Lord of Castamere★ 07-29-2015	Yeah sorry for the confusion, I would have posted sooner but my sleeping schedule is screwy right now.

02:01 PM PT (US)	
155 roytheone★ 07-29-2015 02:02 PM PT (US)	Thanks for the explanation retro, I think I now fully understand the doubleganger role.
156 Sawneeks★ 07-29-2015 02:03 PM PT (US)	/m154 No worries. A handful of people still have yet to post or roll claim so you're just in time for the party!
157 RetroMG★ 07-29-2015 02:04 PM PT (US)	@Roy - I'm glad one of us does, cause I'm not sure I do. ;)
158 roytheone★ 07-29-2015 02:04 PM PT (US)	/m156 I can't wait for kitty's role claim now! Edited 07-29-2015 02:04 PM
159 Sawneeks★ 07-29-2015 02:14 PM PT (US)	So for we are only missing KingKitty, Nin1000, and Seath as they have not posted yet. Roles are now sitting at: Doppelganger: 1 (claimed by Lord of Castamere) Werewolves: 2 (??) Minion: 1 (KingKitty, Accused by Castamere) Mason: 2 (Sorian (was Insomniac), Fireblend, Czar) Seer: 1 (Sawneeks, now also Lord of Castamere) Robber: 1 (Zipperpinhead, switched with Swamped) Witch: 1 (Roytheone) Troublemaker: 1 (Swamped, switched with Zipper) Drunk: 1 (??) Insomniac: 1 (Originally claimed by Sorian and Hornets) Hunter: 1 (??) Tanner: 1 (??) Villager: 1 (??)
160 Sorian★ 07-29-2015 02:15 PM PT (US)	/m150 My claim is also officially contradicting LoC's or his is contradicting mine, whichever way you want to look at it. The only way I can see that my claim would be true is if the doppelganger woke up and somehow got a mason card away from our two masons who saw each other.
161 roytheone★ 07-29-2015 02:20 PM PT (US)	/m159 so according to that list, I wasnt swapped by anyone, because the second victim of swamped was someone that hasn't posted yet back then.
162	/m161

Sawneeks★ 07-29-2015 02:25 PM PT (US)	Possibly. I'm waiting to see what Swampd says first. /m160 I have to get back to work so I won't be able to post for a while, but Sorian = Tanner. Fire and Czar only saw each other as Masons and if the Doppelganger had swapped Sorian all 3 would have seen each other during the night.
163 roytheone★ 07-29-2015 02:30 PM PT (US)	/m162 but according to swampd, he switched sorian with ????. So that would mean someone else is Tanner now.
164 Lord of Castamere★ 07-29-2015 02:32 PM PT (US)	/m160 All I know is I was the Doppleganger and became Seer. I switched nobody. Your story doesn't add up.
165 Soriant★ 07-29-2015 02:32 PM PT (US)	/m162 Completely hypothetical example below: Correct me if I'm wrong but Doppelganger wakes up, changes to trouble maker, switches Fire or Czar with ???. It is now time for the Mason's to wake up and look at each other. Both Fire and Czar still think they are masons, they look at each other, wink and nod a few times, then go back to sleep. Swampd comes along later and switches me and ???. I am now a Mason and know it because I was told at the end, ??? was a mason during mason wake up time but was unaware so they never opened their eyes for the winking and nodding session.
166 Fireblend★ 07-29-2015 02:35 PM PT (US)	Yeah, LoC's claim contradicts Soriant's "insomniac waking up as mason" story. One of these would have to be true for Soriant to be telling the truth: 1. Me and CzarTime are lying about being masons. 2. Swampd is lying about being a troublemaker - and Zipped is lying about being the robber and robbing Swampd's troublemaker card. 3. Swampd is the troublemaker but is lying about who she swapped. 4. LoC's lying about being the doppelganger, or what he did as the doppelganger. From my point of view, 1 is false, of course. I just want to be exhaustive. Edited 07-29-2015 03:12 PM
167 Fireblend★ 07-29-2015 02:39 PM PT (US)	/m165 you're correct, in that scenario you would be telling the truth. Unlikely given our current claims. We'll have to wait if a second doppelganger comes forward.
168 roytheone★ 07-29-2015 02:42 PM PT (US)	/m165 that would mean lord would be lying about being the doubleganger, because why if he really changed in a troublemaker why would he ever lie about kitty as being the minion, there is no reason for that.
169	/m167

Sorian★ 07-29-2015 02:42 PM PT (US)	Yeah, very exhausting example but may not be far from the truth. My main point though was in /m162 Saw said 3 Masons would have seen each other. Unless the doppelganger became a Mason themselves then there was never a chance 3 Masons would have seen each other. The two people that got Mason PMs were always going to see each other (same with the Wolfs and Minion) no matter what, even if their role was already long changed.
170 Sorian★ 07-29-2015 02:46 PM PT (US)	/m168 Well he could just be lying about being the doppelganger at all. I admit, if he was the doppelganger, there is no real reason to lie about what he changed to unless he knew kitty is a wolf, is on the team, and is trying to divert attention with the minion claim.
171 roytheone★ 07-29-2015 02:48 PM PT (US)	/m170 I do find it very convenient that the minion he picked was someone that hadn't posted yet. I do doubt his claim as doubleganger a bit.
172 Hornets 07-29-2015 02:52 PM PT (US)	I'm not sure what to think of LoC's claim I feel like if he had found the minion, coming out with it immediately would be a bad move, because we haven't heard from KK. It's not like he found a wolf, in which case there's no reason to hide it, but with the minion he could've held off until we'd seen who KK was pointing the finger at or who he was sticking up for. Now, if we know he's the minion, that just means he can accuse a wolf and have the safety of "Oh he wouldn't accuse a wolf they're probably village then" from everyone else, if you see what I mean. It's given him safety in a double bluff situation.
173 Fireblend★ 07-29-2015 02:52 PM PT (US)	On the one hand, if he's a wolf/minion claiming doppelganger it is convenient to point towards someone that hasn't posted yet. On the other hand, if he was a minion or wolf calling Kitty a minion to divert attention from Kitty's identity as a wolf, why name drop him at all? I think it's much more likelier that if he's lying, Kitty is innocent. But I want to see what he (Kitty) has to say first.
174 swamped 07-29-2015 02:52 PM PT (US)	Haven't quite had the chance to catch up yet, but in response to /m163 - Roy, you are correct, I didn't swap you with Sorian. I kinda still want to wait until the remaining people claim before I say who I did swap, but the list is getting smaller. @Zipped Alright! Thanks for confirming me. Nobody else could have swapped my role after you did.
175 Lord of Castamere★ 07-29-2015 02:53 PM PT (US)	/m170 Possibly, but that's a major risk on my part. If the real DG claims I'd be screwed, if KK/I were watched, if the cards were seen in the middle etc. So many things off the top of my head that could cause an instant lose. A lot of risk for something that could so easily be trumped.
176 Fireblend★ 07-29-2015 02:58 PM PT (US)	/m175 I actually think faking a DG would be one of the easiest roleclaims to defend against an actual DG. Not making any judgements yet though. Edited 07-29-2015 02:58 PM
177	Alright, I am almost convinced to share my action. @Sawneek, you are probably

roytheone★ 07-29-2015 02:58 PM PT (US)	waiting for the last two claims to see if they contradict your findings right?
178 Soriant★ 07-29-2015 02:59 PM PT (US)	/m175 and /m176 Yeah, I don't actually think you called out Kitty as a minion to protect their actual wolfness. I do strongly believe that your claim of being the doppelganger is suspect though for the same reason Fire just said.
179 Sawneeks★ 07-29-2015 03:00 PM PT (US)	/m177 Yup. Not going to play all my cards just yet. ;D
180 roytheone★ 07-29-2015 03:02 PM PT (US)	/m179 it's a great feeling to have information in your pocket that you can use later, right? I know I love it!
181 Zippedpinhead 07-29-2015 03:09 PM PT (US)	/m166 Fireblend, 2 also causes me to be a liar as well since I robbed swamped and became the troublemaker.
182 Sawneeks★ 07-29-2015 03:09 PM PT (US)	/m180 Definitely. Trying to find the perfect timing is also a lot of fun! Got to keep people on their toes, you know. Also to throw it in; either Swamped is lying about switching Soriant or LoC is lying about being a Doppelganger/taking Seer. I'm more inclined to believe Swamped - why lie about who you switch? - and LoC can hide under two lies when it comes to Doppelganger or the claim of Doppelganger. Soriant could have been Tanner and is now switched as well. Edited 07-29-2015 03:15 PM
183 Fireblend★ 07-29-2015 03:10 PM PT (US)	/m181 wait, does the robber know what he became? Woah, ok then, thanks for that.
184 Soriant★ 07-29-2015 03:12 PM PT (US)	/m181 Since /m166 is about me, I'd like to just throw in my two cents and say that I highly doubt that 2 or 3 could be true. The troublemaker has to have switched me and swamped did come forward and name me specifically, possibly a little too convenient but it lines up.
185 Fireblend★ 07-29-2015 03:13 PM PT (US)	/m184 yeah, that + what Zipped just said which I hadn't realized makes me think 4 is the only possible alternative. Hmmm...

186 Soriant★ 07-29-2015 03:13 PM PT (US)	And @Fire, I do completely appreciate what you've been doing but don't go back to the past and edit too much, that could cause headaches later.
187 Fireblend★ 07-29-2015 03:15 PM PT (US)	/m186 , yeah, I just don't want to be someone's source of misinformation, specially those who haven't been to the thread yet =/ I'll just stop editing because it isn't sustainable anyway. And Retro's going to yell at me. Edited 07-29-2015 03:15 PM
188 roytheone★ 07-29-2015 03:20 PM PT (US)	Alright group, I am kinda bummed that I have to go to sleep without seeing the last two claims, but that's life I guess. I will see what happened as soon as I wake up and then decide if I share my knowledge. @sawneeks, I have a good feeling about you and your claim, so I am going to give you something you may or may not be able to use, depending on if you looked at the central cards or not: the card I gave to ??? Is card number 3. Edited 07-29-2015 03:22 PM
189 Lord of Castamere★ 07-29-2015 03:24 PM PT (US)	I mean in order for this to be true a Doppelganger had to switch someone, correct? That means another Doppelganger is active, or I'm lying about what role I choose, but why would I? Edited 07-29-2015 03:25 PM
190 Fireblend★ 07-29-2015 03:27 PM PT (US)	/m189 yeah, basically you and Soriant are contradicting each other. And I mean, you'd be lying for the same reasons he'd be. Being a tanner/minion/wolf :P it's all about figuring out who's lying and why. Also, just so people don't forget, Hornets is also contradicting Soriant, since both claimed to have started out as Insomniacs. Edited 07-29-2015 03:27 PM
191 Soriant★ 07-29-2015 03:29 PM PT (US)	/m189 Well we can say for sure, only one doppelganger was active (and maybe no doppelganger was active if we want to be completely exhaustive). As for you lying, I don't know. Everyone is trying to win and sometimes that has to involve a good lie. I'm waiting to hear from everyone before I make any real accusations. I just know the truth about myself, for sure, because I didn't get the privilege of seeing any other cards during the night and the list of things that must have happened to coincide with what I know is getting smaller and smaller.
192 Hornets 07-29-2015 03:36 PM PT (US)	Yeah, I'm waiting until all roleclaims have come out to really go on any offensive, but Soriant is just straight up lying
193 Soriant★ 07-29-2015 03:42 PM PT (US)	/m192 Well yeah, it goes without saying that I know you're lying. I'm still trying to wrap my head around if there is a way LoC could be telling the truth. I need a full picture before I can really theorize what happened.

194 Hornets 07-29-2015 03:54 PM PT (US)	/m193 Full picture eh? You mean like this? - http://i.imgur.com/l0XQFEn.png :p
195 Fireblend★ 07-29-2015 03:56 PM PT (US)	lol
196 Soriant★ 07-29-2015 03:58 PM PT (US)	/m194 It's beautiful, I just printed it out and hung it on my fridge to remind me of this moment everyday. <3
197 Lord of Castamere★ 07-29-2015 04:07 PM PT (US)	Yep, the way I see it either Soriant or Hornets is lying, but we have more information coming so I'll wait a bit longer to choose.
198 Zipped 07-29-2015 04:15 PM PT (US)	Since I know swamped was the troublemaker I am more inclined to believe Soriant, how could he know he guess so right about being switched without being the insomniac?
199 Sawneeks★ 07-29-2015 04:33 PM PT (US)	/m188 ... Still just waiting on the others before the cards are all on the table though. /m198 Hm. Didn't think of that actually. Soriant has a higher chance of telling the truth but does that mean one of the Masons are lying or is Swamped lying?
200 Soriant★ 07-29-2015 04:40 PM PT (US)	/m199 Just to be helpful, since you did miss one thing. If I am telling the truth then either the Masons or LoC is lying. If I am lying, then both Swamped and Zipped are covering for me or there was a series coincidences that led us here. Just so everyone can see the full picture. Then, of course, the obvious: If I am lying, Hornet is telling the truth. If Hornet is lying, I am telling the truth. Or we are both liars, that could be a possibility too.
201 kingkitty 07-29-2015	sorry im on a train can't type. also unrelated question, but if the minion is killed, is the game over?

04:48 PM PT (US)	
202 Sorian★ 07-29-2015 04:50 PM PT (US)	/m201 Game ends after one night regardless. If the minion is the only one killed then they win along with the wolf/wolves
203 Sawneeks★ 07-29-2015 04:52 PM PT (US)	/m201 There is only one voting night in this game so only one (or two) people will die depending on the votes. If the Minion dies or a Werewolf does not die, the Werewolves win. If a Werewolf dies, the town wins. If a tanner dies, the tanner wins. /m200 There are a couple of possible things going on but I'm not ready to actively accuse anyone until the last 3 people show up in case there are more counter-claims to be had. Either way The situation with you, Swamped, Zipped, Hornet, LoC, and Fire is interesting and could go either way. I still feel one of you is lying, but as to who exactly is waits to be seen.
204 swamped 07-29-2015 06:01 PM PT (US)	Wait for me, i will post my thoughts in two hours!
205 RetroMG★ 07-29-2015 06:17 PM PT (US)	One more Doppelganger clarification: The Doppelganger does not select its role. It selects a player, and assumes that player's role. There has been some confusion on this, mostly because I was confused about it at the beginning of the game. But that is how it works, and that is how it will work in future games. The confusion partly stemmed from my efforts to do everything in one PM, which will not happen in future games. I'm resigned to the fact that every ONUW game will have at least one major curveball for me to learn from for the next game. Edited 07-29-2015 06:17 PM
206 Sorian★ 07-29-2015 06:21 PM PT (US)	/m205 Wait, so did the doppelganger of this game get to choose a role directly or just choose a player?
207 swamped 07-29-2015 06:25 PM PT (US)	@retro Its ok, we are still in the beta phase lol Very quickly - did anyone to anything to nin1000 last night?
208	"The Doppelganger does not select its role. It selects a player, and assumes that

Fireblend 07-29-2015 06:50 PM PT (US)	player's role." Uh oh. I think someone who claimed DP is in trouble now. Anyway, heading out to watch Ant Man :)
209 Sawneeks★ 07-29-2015 06:53 PM PT (US)	/m207 Not as far as we know! Nin has not claimed anything either. /m208 Well, that makes everything much easier! LoC, you got some explaining to do. :p
210 Lord of Castamere★ 07-29-2015 07:08 PM PT (US)	There has been a misunderstanding. What Retro's saying is I was <i>supposed</i> to choose someone and adopt their role, but due to his misunderstanding of the role I just chose the role itself. In all future games the doppelganger will be unable to choose a role directly.
211 CzarTim★ 07-29-2015 07:50 PM PT (US)	Hi guys what's going-- oh. oh no.
212 Fireblend 07-29-2015 08:08 PM PT (US)	Waiting for Ant Man to start and still refreshing this thread lol. I'm not sure if I want Retro to clear up what exactly happened with the Doppelganger and potentially ruining LoC's story. Even if that means we're operating under even more uncertainty, I feel like it'd be a cheap way to verify/dispute LoC's story =/
213 Soriant★ 07-29-2015 08:47 PM PT (US)	/m212 Same, it wouldn't feel right to have anything solved based on overseer intervention. /m207 So, am I supposed to assume I was traded with nin1000? I'm heading to bed by the way. I'll catch up on everything in the morning.
214 swamped 07-29-2015 09:02 PM PT (US)	Yep, I switched Soriant and Nin1000. Really wanted Nin to say something before I said that, but oh well. I think Soriant might be lying about what he became after the switch if CzarTim and Fireblend really are masons (and at this point I think they are because nobody else has come forth to contest it). Ok, I'm going to read through the thread and post thoughts later.
215 Fireblend 07-29-2015 10:09 PM PT (US)	Yeah, we two are/were masons, it'd be a stupid thing to roleclaim right from the beginning. With the way things are going, I almost feel privileged to be able to know at least someone else for sure isn't suspect =/ hahahaha Edited 07-29-2015 10:09 PM
216 CzarTim★	And you were mad I claimed early :P

07-29-2015 10:22 PM PT (US)	
217 roytheone★ 07-29-2015 11:27 PM PT (US)	Retro, a question: are we still allowed to talk/discuss during the voting period or is that strictly for voting?
218 Nin1000 07-30-2015 01:14 AM PT (US)	OK guys here I am, late to the party. I claim hunter!
219 roytheone★ 07-30-2015 01:39 AM PT (US)	/m218 hello fellow European! I am sorry to say, but that doesn't add up. If swamped speaks the truth, you swapped with sorian, who claims to was the insomniac and now is the Mason. For that to be true you should have been a mason. Someone is lying. Edited 07-30-2015 01:39 AM
220 Zipped 07-30-2015 03:40 AM PT (US)	What if Sorian is tanner, and his game plan was always to claim a swap into a solitary mason, it would solve the lie(though now poor Nin would be the tanner) without impacting hornets or the two claiming masons. Of course for this to be true both wolves have to have been in the center at the start of the game, making the character that is the witch probably know who a wolf is. Other possibilities are somehow Swamped switched the two wolves with each other, the minion is largely found out and hasn't offered any help to them. Final option that solves the lie, Sorian is telling the truth, hornets is tanner, nin is lieing and was mason and czartim and fireblend are wolves. This one doesn't make a lot of sense because of nin's claim. Why lie as the last claiming character? In a normal 10 minute game I'm always Leary of two people that claim mason when someone else claims solitary mason. Just because it's an easy claim for two wolves to make. The hornets claim and Swamped action leads me to believe that is probably not the case.
221 Zipped 07-30-2015 03:45 AM PT (US)	Argh forgot Seath hasn't posted and the drunk is still out there... If roytheone doesnt know who a wolf is, then if the drunk switched a different card from the center with someone else that person could also be a wolf (with my option 1 below, the wolves in the center one). Not having a Seath claim drinks right now,
222 Roytheone 07-30-2015 04:05 AM PT (US)	Alright, a little overview of what I currently think is going on: People i trust that they don't lie about their claim (of course, that doesn't mean they are still the role they claimed, but they didn't lie about their original role): -czartim as mason -fireblend as mason -sawneeks as seer -hornets as the insomniac people I have a little doubt about, but still think are telling the truth:

	-zipped the robber -swamped the troublemaker -nin the hunter People I think are lying and why: -kingkitty is a wolf -lord of castamere is the minion trying to keep us from voting on kitty -Sororian is the tanner trying to get himself killed, but he got switched with nin Seath is one big questionmark, he hasn't claimed yet and no one has said that they did something to him, so for now he is of no consequence to this game. There are probably somethings I have forgot to think about, so feel free to comment.
223 Zipped 07-30-2015 04:26 AM PT (US)	/m222 The problem with the Seath assumption is that there is one more "swapper" out there. The drunk. Unless that card is in the middle of you moved it from the middle and on to someone else as the witch, on some level we have to account for the possibility of Seath being the drunk. What was your action as the witch? Edited 07-30-2015 04:27 AM
224 Roytheone 07-30-2015 04:37 AM PT (US)	/m223, but the drunk doesn't know the card he/she picked, so why should it matter if seath is the drunk?
225 Zipped 07-30-2015 05:11 AM PT (US)	/m234 If seath switched one of the masons with Sororian it solves the hunter/mason/insomniac issue and causes hornets a lot of trouble Edited 07-30-2015 05:13 AM
226 roytheone★ 07-30-2015 05:25 AM PT (US)	/m225 I don't think the drunk can do that. He has to switch himself with a central card and doesn't know his new role. So he couldn't influence the roles of sororian or the masons.
227 Zipped 07-30-2015 05:36 AM PT (US)	/m226 You are right, misremembering the rules. But still who did you switch as the witch? Edit: I ask because, as you implied, unless you switched Seath, his action is largely meaningless (given the 1/3 chance of become card 3). This would give us some good information. I have my suspicions and think this is the last piece we know of that hasn't been played by an active player. Edited 07-30-2015 05:44 AM
228	/m222

Sorian★ 07-30-2015 05:48 AM PT (US)	I have a question then. If LoC is a minion protecting Kitty then is that throwing his whole doppelganger story out the window? Also, we are still waiting on a Seer to pass along knowledge, right?
229 Fireblend 07-30-2015 05:51 AM PT (US)	I can't stress enough that Tim and I are masons. Sure, it's an easy claim to make against a lone mason, but we didn't even know if there was one or two when Tim claimed what we were. I don't have much more than that other that no one has even role-claimed to be the lone mason Sorian talks about. Please, operate under that assumption. Right now I suspect Sorian the most, but not as a wolf, mostly because no one seems to have got his back. Hornets is saying he's lying, LoC's doppelganger claim contradicts his story, Swamped's doesn't help either... if he was a wolf, I'd expect another player (wolf or minion) to be verifying his claim in some way. So... tanner? the only other possibility is he's telling the truth and those who are contradicting him are lying, but I really have to go over the order of the events to know if it's possible at least 2 of those who contradict him may be conspiring as wolves/minion, and consider they'd have to be lying about their roles, which hasn't been suggested by anyone so far. No one has come forward as a second troublemaker, or a second doppelganger. I don't think KingKitty is a wolf. If we assume LoC lied about being a doppelganger seer as part of the "conspiracy", it'd be weird to name-drop a co-conspirator, specially if that co-conspirator hadn't posted yet. This is just a thought though, I want to see what Kitty has to say for himself when he shows up. Edited 07-30-2015 05:53 AM
230 Sorian★ 07-30-2015 06:19 AM PT (US)	/m229 I don't think there was a lone mason in this game either and I've never really believed there was. The only way I can think this works is that there were two troublemaker switches and one player was involved in both while either Fire and Tim were other person in the first swap and I was the other person in the second swap. I believe swamped because she had always claimed that she swapped me and never claimed doppelganger so she would have had to have been the second troublemaker and I believe zipped as a corroborator to her story. Without some extra knowledge, this means I have to cast some doubt on the doppelganger (I don't believe LoC was a doppelganger at all). Nin would have been the person involved in both swaps, obviously, if we want to believe swamped 100% so hunter is a fair claim as truth or as cover for wolf/minion/tanner.
231 swamped 07-30-2015 07:02 AM PT (US)	I think we need Sawneeks the seer to tell is more now. If Hunter was one of the central cards then that makes live easier for town. If Nin was a werewolf/tanner/minion before the swap, it makes sense that Sorian would lie about what he eventually became. Of course, I'm assuming Sorian was the insomniac. I actually believe Sorian's insomniac claim over RNH's because he claimed to have switched roles before I even mentioned I had switched him.
232 Sorian★ 07-30-2015 07:09 AM PT (US)	And I'm assuming Roy is going to wait for Sawneeks to spill before he says what he turned someone into with his witch power?

233 Lord of Castamere★ 07-30-2015 07:21 AM PT (US)	My thoughts. RHN is lying and a Werewolf. The other Werewolf is center, and KingKitty is minion. Unsure about Sorian. I know that I'm a Doppleganger. Nobody's debunking that, but I'm unsure how Sorian claims could be true otherwise. The double Mason claim is suspect but collaborating evidence seems to prove it. I believe sawneeks, zipped, roy, and swamped. I haven't heard enough from Seath/Nin.
234 Nin1000 07-30-2015 07:26 AM PT (US)	Nothing to report from my side, since I did not kill anybody :)
235 Nin1000 07-30-2015 07:26 AM PT (US)	I am just now heading home to read through the thread.
236 Fireblend★ 07-30-2015 07:42 AM PT (US)	/m234 wait, what game are you playing? There's been no killings yet haha. Has KingKitty posted yet? Edit: He did, but nothing of value. Edited 07-30-2015 07:43 AM
237 Sorian★ 07-30-2015 07:44 AM PT (US)	/m201 This is Kingkitty's only post. Take it how you will.
238 Roytheone 07-30-2015 07:50 AM PT (US)	Alright, I wanted to wait to share my action after seath and kitty role claimed, but I am afraid that isn't going to happen anytime soon. And because the time to the deadline is slowly ticking away and I will not be able to post for the next 5 hours or so, I will give you guys my witch action: I switched fireblend with card 3. He is now a wolf. Yes, he got Barry'd HARD by me, sorry about that fire. Anyway, if it is true what swamped said and nobody else touched fireblend, voting for him will be a relatively save way to win, much saver than looking for who is the lair in the whole mason/insomniac situation.
239 Sorian★ 07-30-2015 07:54 AM PT (US)	/m238 The plot thickens. Sawneeks, did you look at the center cards? A vague post you made at some point makes me feel like you did but I can't find the post. /m199 This post. Edited 07-30-2015 07:55 AM
240 Fireblend★	Well, I guess if Sawneeks verifies Roy's claim I'm in trouble. Guess we'll have to wait (hopefully sooner rather than later). I would lean towards voting for a liar in

07-30-2015 07:59 AM PT (US)	the Sorian vs. The World situation though, considering we know someone's lying there for sure. If Sorian turns out to be lying though (as a tanner, for reasons I already mentioned), the others would be cleared and the wolves/minion identities would be up in the air again (a good opportunity for them to project guilt onto me?).
241 CzarTim★ 07-30-2015 08:16 AM PT (US)	But he was my buddy :(
242 Fireblend★ 07-30-2015 08:20 AM PT (US)	Oh, I'm pretty confident I still am, Tim. Obviously, I'm forced to say/believe Roytheone is lying, but I'm pretty sure regardless of what Sawneeks says next I can prove it. Don't mourn for me quite yet ;) Edited 07-30-2015 08:21 AM
243 Sorian★ 07-30-2015 08:23 AM PT (US)	/m242 I look forward to see where this goes next. I think we can all agree that we are at a standstill until Sawneeks posts next.
244 CzarTim★ 07-30-2015 08:26 AM PT (US)	retro, can you please prod Seath.
245 Roytheone 07-30-2015 08:38 AM PT (US)	/m242 I wonder how you will prove it if Sawneeks confirms my claim. By calling both me and Sawneeks lairs?
246 Sorian★ 07-30-2015 08:42 AM PT (US)	/m245 Well, to be fair, at this point, Sawneeks holds a lot of power. She could out you as a liar, cement Fire as a wolf, throw more confusion onto my situation. And we don't have much to verify her past that. She claimed Seer early but if she lucked out and there was never a Seer in play then now we are looking at her for advice that could be great or misleading.
247 Roytheone 07-30-2015 08:45 AM PT (US)	Defiantly, and I know I am NOT a lair and I do have a good feeling about Sawneeks (I know, always a risk to trust someone in this game), so I don't think she will disprove my claim. She will either prove it, or it turns out she hasn't checked card 3, which would be unfortunate.
248 Fireblend★ 07-30-2015 08:49 AM PT (US)	/m245 I'm not gonna say much more without Sawneeks' input and even after that I'll probably wait a bit before "presenting a defense", if it's even needed.
249 Roytheone 07-30-2015	Also a possibility: someone else has lied and fireblends role got switched again after my action. That would create a huge clusterfuck.

08:50 AM PT (US)	Anyway, I will be unable to respond for the next 4 hours or so, so if you ask me something it could take a while for me to respond.
250 Soriant★ 07-30-2015 08:55 AM PT (US)	/m249 Roy, you claim to just be a witch, right? Not a doppelganger who became witch? If so, the only way fire could have been switched again after you is if the troublemaker lied and switched me with fire instead of with nin. That's possible but seems unlikely to me at this time.
251 Seath 07-30-2015 08:59 AM PT (US)	Hey all!
252 Soriant★ 07-30-2015 09:00 AM PT (US)	Welcome to the clusterfuck. We will be waiting with bated breath for your next post.
253 Seath 07-30-2015 09:00 AM PT (US)	Who are we lynching?
254 RetroMG★ 07-30-2015 09:01 AM PT (US)	Good morning everyone! I have prodded Seath as requested. I am leaving the Doppelganger question murky to further confuse you. I'm willing to leave discussion open during voting tomorrow, but I will remind you of one rule: You get one vote. Once the vote is submitted, it is final. No take-backs.
255 Seath 07-30-2015 09:01 AM PT (US)	Seems fishy...
256 RetroMG★ 07-30-2015 09:02 AM PT (US)	Not a fan of fish. How do you feel about shrimp? Or clams? I even like Calamari. EDIT: Actually, Fish sticks are okay. And I had salmon in Pittsburgh several years ago that was pretty good. Edited 07-30-2015 09:07 AM
257 Soriant★ 07-30-2015 09:03 AM PT (US)	/m254 I appreciate you leaving the doppelganger question murky. This game would lose some of its inherited charm if we were given that answer.

258 Sorian★ 07-30-2015 09:28 AM PT (US)	So, Seath, buddy, talk to us. We need a roleclaim of some sort.
259 Sawneeks★ 07-30-2015 10:00 AM PT (US)	Oh my, a lot happened this morning. Going off of what Roy said earlier I can confirm I did look at 2 of the center cards, cards 1 and 3. Card 1 is the Drunk. Card 3 is a Werewolf and I have had no reason to believe Roy - who even knew the importance of card 3 before I said anything - is lying so this makes Fireblend the new Werewolf.
260 Sorian★ 07-30-2015 10:02 AM PT (US)	That went about exactly how I expected it too. I'd really like to see Seath's roleclaim as well just so I can see the whole picture.
261 swamped★ 07-30-2015 12:37 PM PT (US)	When is the deadline for voting again?
262 Sorian★ 07-30-2015 12:46 PM PT (US)	It looks like he has the main discussion phase ending tomorrow morning at 7am PT and then voting period is for 24 hours after that. Since there are no take backs on the vote, I'd assume results might be announced earlier if all 12 votes get in early.
263 Roytheone 07-30-2015 12:59 PM PT (US)	Alright you guys, I am back so lets look what happened. /m250 yes, I am a pure blood witch, none of that doppelganger stuff. And I agree it is unlikely that Fireblend was switched again, that was one of the reasons I decided it was now OK to share my information. /m259 and there it is, conformation. Sure, you could say that it is possible that both me and sawneeks are lying, but neither of our roles have been contested yet, and how big is the chance of that happening if we were lying? Very, very low. So yeah, I think it is pretty much proven now that fireblend is indeed a wolf. Sure, in the whole mason/insomniac debate there is probably also a wolf hiding, but probably also a minion and a tanner. So I think the best course of action is to vote for Fireblend.
264 Fireblend★ 07-30-2015 01:05 PM PT (US)	I just want to say I'm not gone, I'm only standing on the sidelines for a bit to see other players provide their thoughts. Come on guys, don't be afraid to share your thoughts :P it feels like there's only 5 of us in this game. Even if it is to condemn me, I really would like to see more participation here. And what's with Seath showing up and not saying anything useful? blegh. Also, here's my obligatory statement about Roytheone and Sawneeks lying: Roytheone and Sawneeks are lying. Edited 07-30-2015 01:08 PM
265 Sawneeks★ 07-30-2015	/m263 Exactly. At first I was pretty wary about Roy because he put a lot of trust in my role

01:18 PM PT (US)	even though anyone could be lying. As more people showed up without contesting his role, plus the reference of middle card 3 being a big deal, the possibility of Roy being a liar diminished and I trust him. The only way this could mess up is if someone lied and actually switched Fireblend with another person but seeing as all the switch cards are Town-Aligned I don't see why you would need to keep quiet about it. /m264 Sorry Fire, you're going to have to be a Marytr for the cause. Just know if you die you will have fulfilled your duty as Mason. ;p
266 Zippedpinhead 07-30-2015 01:19 PM PT (US)	Isn't it possible that roytheone and sawneeks are werewolves and are trying to get us to lynch someone not them? They seem to be in a loop that each one proves the other and that proves fireblend is a wolf. Unfortunately, It leaves us in a bit of a jumble. If we had to vote RIGHT now, who would you vote for? Despite reservations on Roy and Sawneeks, I'd still probably vote for Fireblend over Sorian. Sorian sounds like he drew Tanner, which is now Nin, He wouldn't know that so fake insomniac to Mason. It draws a target (by being two non wolf roles that know largely who they are during the night AND are fairly easy to catch). This lines him up with tons of suspicions, but not make him "Target number one" and thus an obvious tanner. Because I KNOW Swamped was the troublemaker, I know that Sorian is no longer his card, so anything he is trying makes me not vote for him at all. That leaves The Doppelganger/ kingkitty minion thing. which sounds so plausible, but it's almost too easy (like my reservations for voting Fireblend). Knowing Kingkitty is minion and wasn't changed could be a minion ploy to protect his only wolf, but it could be the truth. All in all, I would vote for Fireblend, because it only fails if both sawneeks and roytheone are wolves. The others can fail too, but only if 1 person is lying not two (since kingkitty isn't really talking, and I know swamped is legit in her role).
267 Roytheone 07-30-2015 01:27 PM PT (US)	/m265, well I didn't put THAT much trust in your role ;). That little something I gave you about me switching someone with card 3? That wasn't because I 100 % trusted you, but I wanted to test you. When you responded with "...." I was sure that you knew the importance of that fact, and thus you weren't lying and would back me up when I came out with my knowledge. /m266 I can understand your reservation, but really, what is the chance that both me and sawneeks manage to pick a role with 0 counter claims if we were wolfs? Incredibly low.
268 Zipped 07-30-2015 01:29 PM PT (US)	/m267 And that's why i will probably end up voting for fireblend, but I wanted to post my reservations. Need I make sure everyone is informed of my thought process
269 Roytheone 07-30-2015	/m266 also zipped, before my revelation the discussion was purely focused on the whole mason/insomniac thing, there was literally nobody that had me and/or sawneeks as wolf suspects. So if we were wolfs, why draw attention to ourselves

01:31 PM PT (US)	like this? We could have just waited it out and probably someone from the mason/insomniac debate would be lynched.
270 Soriana★ 07-30-2015 01:33 PM PT (US)	With the information that is currently available to all of us, I'd also vote for Fire. I want to hear the last roleclaim and I want nin to speak up a little bit more, this mason/insomniac debacle still matters and I wonder how truthful the hunter role claim actually was.
271 RetroMG★ 07-30-2015 01:35 PM PT (US)	@Swamped - Voting begins tomorrow morning at 7:00 AM Pacific time, and closes Saturday morning at 7:00 AM Pacific time. End Game reveal will happen shortly thereafter. Just a reminder, this will be a secret vote, so you will vote by sending a PM to RetroMG on Gaf with VOTE: <username> I'll prod Kingkitty and see if he has anything to add to this discussion.
272 swamped★ 07-30-2015 01:37 PM PT (US)	Yeah, Fireblend is looking like an obvious choice now. That's likely how I would vote too.
273 Sawneeks★ 07-30-2015 01:46 PM PT (US)	/m267 There was enough to where you were willing to even hint at what you knew and I have to admit you did it in the best possible way. I started grinning like an idiot in the middle of work when I read you knew what Card 3 was. There was the possibility that you were still lying (and just a damn good guesser) but there was no way you could have known what Card 3 was unless you were a Seer or Witch and still have it line up. And I know what I saw when I looked at the middle cards. /m270 I agree. I know who I will vote for but I'm still interested where this mason/insomniac stuff goes as well as the final role claim. There is still one more Wolf out there as well as a Minion and the identity of the 2nd middle card is still unknown leaving open a lot of possibilities.
274 roytheone★ 07-30-2015 02:10 PM PT (US)	/m273 you are too kind ;) and I had the exact same reaction when I got the pm from retro saying I made fireblend a wolf, I was pretty stoked about that result! :) It will be interesting to see how the minion and other wolf will respond to all this. They can't suddenly attack us, that would be too obvious while they still are under a magnifying lens because of the whole Mason/insomniac business.
275 Soriana★ 07-30-2015 02:13 PM PT (US)	So card 2 in the center was, what? Either wolf, minion, tanner, or villager?
276 Hornets 07-30-2015 02:22 PM PT (US)	Ok, sorry I haven't been more active, busy day at work and I am knackered. So in terms of claims, the current situation is: CzarTim: Mason -> Mason Fireblend: Mason -> Wolf (Roy switch from centre)

	Kingkitty: Minion -> Minion (LoC revealed) Lord of Castamere: Doppelganger Seer -> Doppelganger Seer Nin1000: Hunter -> Insomniac/Tanner (switched by Swampd, depending on if we believe Sorian) RobotNinjaHornets: Insomniac -> Insomniac Roytheone: Witch -> Witch Sawneeks: Seer -> Seer Swampd: Troublemaker -> Robber Seath: ??? Sorian: Insomniac/Tanner -> Mason/Hunter (switched by Swampd, depending on if we believe Sorian) Zippedpinhead: Robber -> Troublemaker Card 1: Drunk -> Drunk (seen by Sawneeks) Card 2: ??? Card 3: Wolf -> Mason So assuming that Sorian is the Tanner, Card 2 and Seath are either a werewolf or a normal villager, correct? Everyone happy with this before I go into more detailed thoughts?
277 Hornets 07-30-2015 02:24 PM PT (US)	Oh, and I've only put Sorian's ridiculous claim as Insomniac in there for reasons of being impartial on how everyone else sees it. But he is a massive liar. Srsly.
278 Sorian★ 07-30-2015 02:30 PM PT (US)	/m276 Well, I mean, I'm still counter-claiming you on insomniac which I can't help but notice you omitted under your name on there. But yes, otherwise, that is what we have to work with. So, to be exhaustive once again, you are Insomniac/??? -> Insomniac/??? (depending on whether you believe myself or hornets). I should probably also state what I think is kind of obvious at this point. If a wolf was in play, he or she woke up by themselves and they don't know who their minion is. We haven't really had anyone acting like a normal minion throughout all of this so that wolf has had to operate as if they are alone on a team up until this whole "Fire might be a wolf" thing came about.
279 Hornets 07-30-2015 02:42 PM PT (US)	So what do you think I am then? I mean, if you're telling the truth, then at least one of swampd or nin is lying as well as me, so why would they be lying? If it's nin, then why would he lie about being a hunter and not a mason, and why has noone called him out on that? It would also mean the two supposed masons were lying as well. And if swampd lied about who she switched you with, what would we gain from that, given her role is town aligned? Yes, one part of your story fits in with what happened, but that just means that there are more holes in it, which seems like a pretty standard Tanner route to me. No?
280 Sorian★ 07-30-2015	/m279 Nin could easily be lying. No one has called him out on it because 1) he hasn't

02:55 PM PT (US)	really said much and 2) he was one of the last people to claim. He claimed something that had been unclaimed up until that point and it has remained uncontested since then so there isn't really a whole lot of evidence to toss in that direction but it's hardly a solid conclusion. I don't think swamped is lying and her telling the truth does not devalue what I've been saying in anyway. I think you meant to say LoC would have to be lying. With what happened to me, the doppelganger had to have had a night action, simple as that. Between those two cases I believe Nin more than LoC, I don't believe he was actually the doppelganger. As for you, well the only three reasons you'd be lying is if you are the Tanner, the Minion (who would have had to come up with something interesting to be helpful since they woke up to see only one wolf), or the lone wolf yourself. I'm not really up on every single strategy a wolf could employ if they were by themselves but I would think pretending to be a tanner would be a good move and counter-claiming on someone as early as you did seem viable enough. That's all hypothetical, of course, and fire still seems like the safest conclusion so far.
281 Hornets 07-30-2015 03:05 PM PT (US)	But according to you, if nin was lying, then he'd be a mason. He'd have no reason not to claim to be mason. So why would he not claim to be mason? And nope, swamped. Because if nin is telling the truth, then swamped can't have swapped you with him, as he's the hunter. It's also worth mentioning that if you were the tanner and did get switched with nin, you're now on the town side, so it would benefit you to stop lying. Not sure I follow your train of thought on why LoC would be lying? And again, if he was lying, why would he be lying? Here's the thing, for you to be telling the truth, someone town aligned has to be lying. Why on earth would someone town aligned be lying about what they did to you? For me to be telling the truth, you're the only one who's claiming against me. No-one switched me and no-one's claimed to switch me.
282 RetroMG★ 07-30-2015 03:16 PM PT (US)	Question: Since this is a secret vote, do you care to see who voted for whom after the vote is over? I was just thinking about it because I'm putting together the "credits" for the game (who had what role at the end) now.
283 kingkitty 07-30-2015 03:17 PM PT (US)	well ive been prodded but im still on a train unfortunately, and my next location is another train station. i'm not a minion, and if lordofcastamere was truly a seer, he would see my real role.
284 Fireblend★ 07-30-2015 03:21 PM PT (US)	/m282 Sure. I want to see who to blame when I get killed and the werewolves win due to people falling for Sawneek's and Roy's lies. Also, still waiting for more people to chime in before I truly defend myself from the current accusations. The way I see it, I only get one shot at it and I'd rather it wasn't buried by the time we get close to the actual voting. Edited 07-30-2015 03:22 PM

285 Sorian★ 07-30-2015 03:26 PM PT (US)	/m281 I'm under heavy suspicion and have been under suspicion since very early on in this game. It's easy enough for me to point out that nin is town aligned but he has no real way of knowing that for sure until I'm all cleared up. If I have been lying then that makes him Team Wolf or Tanner. I don't think I'd just corroborate someone else's story in that case either. Nin can't claim Mason anyway without a whole other can of worms opening anyway. Fire and Tim corroborated each others stories. And it's obvious they weren't double wolf at the beginning. As far as Nin is concerned, he never was a mason. And I've explained this other part before, the doppelganger had to have become a troublemaker. They then switched Fire or Tim with Nin. Swamped then came along later and switched Nin and myself. In that scenario, both nin and swamped are telling the truth, LoC is the sticking point. /m283 And here you go if you wanted more fuel for LoC.
286 kingkitty 07-30-2015 03:28 PM PT (US)	i'm insomniac btw.
287 Fireblend★ 07-30-2015 03:29 PM PT (US)	/m286 Oh wow.
288 Sorian★ 07-30-2015 03:31 PM PT (US)	/m286 Same question I ask everyone else. Are you doppelganger insomniac or regular insomniac? Edit: Oh duh, and what are you saying you woke up as? Still insomniac? Edited 07-30-2015 03:32 PM
289 kingkitty 07-30-2015 03:32 PM PT (US)	regular
290 Sorian★ 07-30-2015 03:32 PM PT (US)	/m289 Sorry, I edited an old post thinking I'd get it in time. Are you saying you woke up as an insomniac too?
291 CzarTim★ 07-30-2015 03:34 PM PT (US)	lol king Voting fire. He used to be my bff, but these days he's been acting weird. Esp. when there's a full moon.
292	yeah always as insomniac, and my role hadn't changed.

kingkitty 07-30-2015 03:35 PM PT (US)	
293 Hornets 07-30-2015 03:35 PM PT (US)	... Ok so kitty's the minion then
294 CzarTim★ 07-30-2015 03:36 PM PT (US)	thanks for confirming LoC for us king
295 Soriant★ 07-30-2015 03:37 PM PT (US)	*waits patiently for Seath to show up and claim insomniac as well* /m293 Unfortunately, we can't dismiss Kitty's claim that easily even if it is an obvious lie.
296 Fireblend★ 07-30-2015 03:38 PM PT (US)	/m292 I'm willing to accept all your condemnations now as long as you allow me the chance to defend myself once we're closer to the voting. Don't vote without giving me a chance! I shall be redeemed, and we shall save this town! Well, either that or you all will be eating crow by the time this is over.
297 Sawneeks★ 07-30-2015 04:50 PM PT (US)	/m296 I don't know, as I was typing this up the fire alarm at my work went off and your name is Fireblend. Think that all but confirms it. All joking aside, with Kitty now claim Insomniac there is little else to argue when it comes to Fire being a wolf. Unless Seath comes forward and claims Doppelganger -> Robber/Troublemaker and switches Fire there isn't much to do. I don't know what to make of the legitimacy of Kitty's claims but it casts doubt on the other two Insomniac claims and a bit on LoC. Kitty has the highest possibility of being Minion because claiming Insomniac puts doubt on LoC and away from the potential other wolf. If this is the case I feel Soriant is a Wolf or Tanner.
298 Soriant★ 07-30-2015 06:18 PM PT (US)	Ok, I was hoping for more people to start posting but we are getting into the evening hours before the morning that voting opens and from everything I've seen and read, I think I am now on the side of the town. I wasn't 100% sure and I'm still not but I feel comfortable with the stories of the people I've heard to think that I am currently a town role. I was a wolf at the start. I woke up as a lone wolf as people probably guessed already. And like I kind of hinted at earlier, for better or worse, I decided to play as if I was the tanner hoping it might divert attention. I was surprised that I got switched which helped my story and I'm pretty confident that a switch did occur that moved the wolf role off of myself. Like I said, I woke up by myself so I do know that a wolf card was in the center from the start and I have no reason to doubt that it was card number three with what we've heard.
299 swamped★	@Soriant I knew something didn't add up with your story!

07-30-2015 06:44 PM PT (US)	But I have bad news for you...I didn't switch you :P KIDDING kidding, I did switch you and nin1000. It's just so coincidental that you came up with a fake story that actually turned out to be half real. This means that nin1000 is once again a wolf lol.
300 Soriana★ 07-30-2015 06:54 PM PT (US)	/m299 My one fear, my main reservation was that you would come in a say JUST KIDDING as some weird trap to catch a werewolf.
301 Sawneeks★ 07-30-2015 07:50 PM PT (US)	With voting starting up soon I'm just going to bring this to attention before anyone casts their vote. So far there are two obvious Wolf options: Fireblend and Nin1000. I still feel Fireblend is the safest vote so far because Roytheone's move as Witch has not yet been contested while Nin1000 (originally Soriana) accusation of being a Werewolf has been counter-claimed on various levels. First with Soriana's lie of Insomniac -> Mason and now the sudden change of actually being a Wolf is a little too coincidental at the last minute. We still have no clue who the Tanner might be either and that should be kept in mind. Voting for Nin1000 can still be viable but neither mine nor Roy's rolls have been contested and we both confirm each others actions during the night. This would mean Roy switched Card 3 (Werewolf) with Fireblend's card making him the Wolf and during the night I looked at cards 1 and 3, confirming his claim of Werewolf being Card 3. You can look at it that Roy and I are Wolves and are simply putting the blame on someone else. However, both Roy and I claimed our rolls early in the game and if we were the Wolves why would we have picked two classes that had a high chance to pick out our lie? We would have been making a gamble that BOTH Seer and Witch would be in the center, but that is an incredibly ballsy play to open with and could have easily been debunked by someone else claiming the roll. Take that as you will, but a vote for Fireblend is a vote for town safety.
302 Soriana★ 07-30-2015 07:57 PM PT (US)	Honestly, I'd still urge people to vote Fire as well. My claim helps to indict both of them but then only swamped helps to indict Nin while both Sawneeks and Roy help to indict Fire. Just from a purely numbers standpoint. Fire is the safer vote and we should consolidate the majority of our votes to one person.
303 nin1000 07-30-2015 09:00 PM PT (US)	Sorry , but why sawneeks do you think that i could be a wolf even though i claimed to be a hunter ?
304 nin1000 07-30-2015 09:02 PM PT (US)	Nin could easily be lying. No one has called him out on it because 1) he hasn't really said much and 2) he was one of the last people to claim. He claimed something that had been unclaimed up until that point and it has remained uncontested since then so there isn't really a whole lot of evidence to toss in that direction but it's hardly a solid conclusion. Could be lying , but i am not . as for being one of the last, well i even said that i was

	on an european timezone and could and would not be able to claim as early as everyone else.
305 nin1000 07-30-2015 09:04 PM PT (US)	Even if we believe Sorian and i was indeed swapped i am in the end just an Insomniac/Tanner.
306 nin1000 07-30-2015 09:07 PM PT (US)	Oh well , just reading through the thread now , just forget what i said lol. I could be indeed a Wolf wtf. Will update with my thoughts in a bit.
307 Sorian★ 07-30-2015 09:41 PM PT (US)	Just wanted to report in to say I'm heading to bed. I'll catch up with the thread in the morning.
308 CzarTim★ 07-30-2015 09:48 PM PT (US)	I agree with everyone voting fire. For fire to not be the wolf, it would require more uncontested lies than we have unaccounted for roles. related: now taking signups for my mason club. 1 vacant slot. Must be okay with funny hats and long winded stories about 'nam.
309 roytheone★ 07-30-2015 09:52 PM PT (US)	Alright people, just woke up to the fact we maybe found our second wolf, good job! But don't forget that voting for fireblend is STILL the most safe way to go. The fact sorian agreed with this actually makes his claim stronger, if he was a wolf or minion he would not keep supporting the firblend vote. Anyway, have to go to work soon and can't post for a while, at least until two hours after the start of the voting period. So don't be afraid to wait with voting if you want me to clear some things up first, we are still allowed to talk during the voting period.
310 Fireblend 07-30-2015 10:31 PM PT (US)	EVERYONE. PLEASE READ THIS BEFORE VOTING FOR ME. If after this you're still convinced, then feel free to condemn me to death. Ok then. I didn't want to be in this position and I wanted more people to chime in, but I guess there's no going back. first of all, let me start by saying I'm convinced I'm town and with this post it is my intention to convince you too. I shall now present my defense: I have no defense. Seriously, that's my best defense. Think about it. Either I'm a lone wolf, and the other center cards are a wolf and a minion (something that according to "seer" Sawneeks is impossible - /m259) or there is a minion/wolf/both in the game and they're so inept none have even given the slightest hint of defending me. That's why I was even glad to see Sawneeks come and verify Roy's story, or else he could have been seen as my fellow wolf/minion by the others, and that's why I've been waiting for other people to chime in. If I had co-conspirators, we couldn't possibly be so coordinated that I somehow told them not to act in my defense, because if I started out as a Mason (something CzarTim can verify) I don't even know who my fellow wolf could possibly be. I'm now absolutely sure that RoyTheOne and Sawneeks are in cahoots, with Sawneeks as a definite wolf and RoyTheOne as either a wolf or a minion (because he knew

	who would help him out on the lie). He claimed Witch, and waited until he knew of someone who he was reasonably sure hadn't been switched and he could call guilt on (who turned out to be me) and get his plan started knowing Sawneeks would help. So: 1. Roytheone claims to be the witch and to have switched with card 3. A risky claim, but also very flexible. If another witch had appeared, he could have claimed to be a doppelganger or, he could be a minion that doesn't particularly care if he dies. 2. Sawneeks claims seer, and not much else. A pretty safe claim. At this time Roy and Saw aren't that coordinated, but they do start to interact a lot. /m118 3. Roytheone, who knows Sawneeks is a wolf, starts saying he has "super important info" and mentions Sawneeks several times as the one who would verify him if he saw card 3, Sawneeks seems to believe him without hesitation. They've been pretty much having an uninterrupted conversation about how cool having super revealing info is: /m119 /m121 /m127 /m130 /m177 /m179 /m180 /m182 /m188 These two occur after their accusations: /m267 /m273 4. Finally, after prompting Sawneeks several time to say he did saw card 3, Roy is left with no choice but to put his plan in action anyway, say he switched me with a wolf which was card 3, and ask Sawneeks for confirmation. /m238 5. Sawneeks, recognizing his helper, just goes along with the plan. /m259 And that's why I think everyone should vote Sawneeks. This is my last statement in this thread.
311 CzarTim★ 07-30-2015 11:07 PM PT (US)	no
312 CzarTim★ 07-30-2015 11:18 PM PT (US)	LoC would have to be lying -> doppelganger mia roy would have to be lying -> witch mia sawneeks would have to be lying -> seer mia drunk and villager still mia (seath is one of them or tanner) so that's 4 roles that would have to be in the center for fire to not be a wolf. not to mention sorian's claim
313 Lord of Castamere★ 07-30-2015 11:20 PM PT (US)	Okay. Sorian is still lying. I didn't have a switch night action. I imagine Sorian is not Town aligned. I can't fault him for giving it his all though. I do want to note that not a single person has stepped forward to counter my Doppelganger claim. If Sorian isn't lying then there has to be a town Doppelganger who is. Which isn't likey.
314 CzarTim★ 07-30-2015 11:33 PM PT (US)	dammit LoC e: oh right, I see what you mean. Doesn't change anything though. Edited 07-30-2015 11:35 PM

315 CzarTim★ 07-30-2015 11:37 PM PT (US)	LoC where did sorian say you switched him? swamped switched him Edited 07-30-2015 11:37 PM
316 Lord of Castamere★ 07-30-2015 11:40 PM PT (US)	/m312 Why would I need to be lying for it to be true? Maybe I missed something but Fireblends story only needs. Roy = Werewolf Sawneeks = Werewolf Kingkitty = Minion Witch-Seer-Villager, Center Roy and Sawneeks would presumably be working together from the start, and Kingkitty isn't trying to draw attention to them at this point. /m315 Sorry, whoever I needed to switch for that story to be true.
317 CzarTim★ 07-30-2015 11:46 PM PT (US)	Ok, but then sorian and/or swamped is lying too then. If swamped is telling the truth, why would sorian lie about being a wolf? He's town now if nin's initial claim is to be believed. If swamped is lying, then sorian wouldn't know that.
318 Lord of Castamere★ 07-31-2015 12:08 AM PT (US)	I'm rereding the thread now, so put a pin in that question for a bit, but looking at this from Fireblends perspective /m121 /m119 are throwing up huge red flags. They read like covert instructions IMO.
319 Lord of Castamere★ 07-31-2015 12:19 AM PT (US)	/m317 As I see it Nin was telling the truth and was a Hunter. Swamped switched them and now Nin is Tanner/Sorian is Hunter, but Sorian is a good sport and doesn't want to out Nin. /m257
320 CzarTim★ 07-31-2015 12:20 AM PT (US)	lol come on LoC
321 Sawneeks★ 07-31-2015 12:24 AM PT (US)	/m316 That would still have been a HUGE gamble for Roy and I if we were Wolves. Seer/Witch are much easier to confirm their claims and if we had lied about our initial claims and another Seer/Witch had popped up and disputed us we would have no defense. To play like that and hope for both of those cards to be in the center is basically asking to be found out. Claiming Insomniac (as Sorian did) or Doppelganger would have been a much better defense. /m310

	The only issue with your claim is that in order for what you say to be true that would mean a good handful of people are lying. If Roy were the minion as you claim then LoC would be lying about his Doppelganger role or who he picked to copy, meaning that KingKitty was also not a Minion and possibly the Insomniac as he claims (which leads back to Sorian/Hornets debate). This would also mean that BOTH Seer and Witch are missing and as I stated above if Roy and I were Wolves that would have been a very dangerous play and we could have been found out by the real Seer/Witch. This would also mean Sorian is lying again about actually being a Wolf after being swapped with Nin. Also about your claims where it seemed we were 'working together' I, and I can't speak for Roy, was waiting since the beginning to reveal which Cards I saw because I was waiting to see if someone would lie. Knowing that Card 1 is a Drunk and Card 3 is a Werewolf I waited to see if anyone would claim a false drunk ("I'm the Drunk and swapped with Card 2/3") claim a false Doppelganger -> Seer/Witch ("I saw/switched Card 1/3 and they were not the Drunk or Werewolf") or any other action that would involve the middle cards so I could catch them. I never considered anyone confirming my claims until Roy mentioned it (/m119) and when he did I realized there was a real possibility he had swapped the 3rd card making this an easy win. But, not sure if Roy was being truthful or not and considering not many people had come forward at that time, I stayed quiet and keep my knowledge hidden. I know of one Werewolf but not of the other or that of the Minion, meaning if I played my cards too early they could easily start accusing people who had not even showed up yet. Again, that's why I did not say anything right away but I can't speak for why Roy did not say anything sooner as his action is the more important of the two.
322 Lord of Castamere★ 07-31-2015 12:25 AM PT (US)	Sorian IS NOT a mason, because I'm not a Troublemaker. I don't know why Sorian keeps the charade going, but he does. A 2nd doppleganger/troublemaker never stepped forward. At this point in order to believe Sorians lies you would need to believe that I'm lying "just 'cause".
323 CzarTim★ 07-31-2015 12:26 AM PT (US)	loc did you not see this post? /m298
324 Sawneeks★ 07-31-2015 12:28 AM PT (US)	I'm inclined to believe Sorian's claim of Wolf because seeing as Troublemaker was never contested that means he is no longer on Team Wolf and has no reason to hide that anymore if he was changed to Team Town. Also, I am heading out for the night. I will read more of the thread tomorrow before voting but I'm still convinced Fireblend is the vote.
325 Lord of Castamere★ 07-31-2015 12:33 AM PT (US)	No, I did not. Dammit. Give me a sec. I'm stuck on past issues apparently.
326	/m298

Lord of Castamere★ 07-31-2015 12:58 AM PT (US)	Sorian is lying. A lone Werewolf gets to see 1 center card, which there's no mention of. This was reactionary. He'll try to retcon it in, but the original post stands as is. I have no idea why Sorian did this. Sorian has now lied twice. I'd be careful about following him again.
327 CzarTim★ 07-31-2015 01:05 AM PT (US)	Or you doppled king, knew he was a minion, and claimed seer to earn town cred. King as minion lines up with sorian being wolf as king claiming insomniac after sorian further puts confusion on the claim. Now you as a second minion are trying to get us to doubt sorian and swamped for no reason. Edited 07-31-2015 01:08 AM
328 Lord of Castamere★ 07-31-2015 01:11 AM PT (US)	/m327 That doesn't change what I said though. Sorian makes no mention of looking at a center card. Why hold that back if Sorian was 100% Town? Sorian could have easily said he looked at card 3 but held back for no reason. Sorian didn't know about the 1 card rule. Edited 07-31-2015 01:12 AM
329 CzarTim★ 07-31-2015 01:16 AM PT (US)	the op makes no mention of this rule unless I'm not seeing it, and according to you retro already made a mistake by letting you choose the role rather than copying a person. So either retro made another mistake, you're lying, or sorian is lying. Which is why we should vote fire.
330 Lord of Castamere★ 07-31-2015 01:32 AM PT (US)	Nah. Sorian is pushing Fire and is a Liar. I haven't decided on a vote yet, but I'm not trusting a target Sorian is pushing so strongly. Edited 07-31-2015 01:32 AM
331 CzarTim★ 07-31-2015 01:36 AM PT (US)	3 people are collaborating the story that fire is a wolf, and according to you none of them are the minion. Please take this as a compliment when I say town you isn't this dense.
332 Lord of Castamere★ 07-31-2015 02:38 AM PT (US)	You say collaboration, I say Werewolf conspiracy. You're just getting sucked into their propaganda. Sheeple.
333 CzarTim★ 07-31-2015 02:39 AM PT (US)	;))
334 Hornets 07-31-2015 02:47 AM PT (US)	So now we're at: CzarTim: Mason -> Mason Fireblend: Mason -> Wolf (Roy switch from centre) Kingkitty: Minion -> Minion (LoC revealed) Lord of Castamere: Doppelganger Seer -> Doppelganger Seer Nin1000: Hunter -> Wolf (switched by Swamped) RobotNinjaHornets: Insomniac -> Insomniac

	Roytheone: Witch -> Witch Sawneeks: Seer -> Seer Swamped: Troublemaker -> Robber Seath: ??? Soriano: Wolf -> Hunter (switched by Swamped) Zippedpinhead: Robber -> Troublemaker Card 1: Drunk -> Drunk (seen by Sawneeks) Card 2: ??? Card 3: Wolf -> Mason So Seath/Card 2 are Tanner or village? No-one's disputing any roles anymore? It makes sense as what happened, there's been a lot of confusion as both wolves got switched, so no wolves actually knew they were wolves. To be honest, from an outside the game perspective, it's kind of a shame if Soriano does turn out to have originally been a wolf, his play was solid. Not sure where you're getting the idea that the lone wolf sees the centre card LoC?
335 CzarTim★ 07-31-2015 02:52 AM PT (US)	My guess is seath is the tanner and LoC is a second minion. or LoC is the only minion and got lucky with king being tanner.
336 Lord of Castamere★ 07-31-2015 03:08 AM PT (US)	It was in the rule pdf. After Retro screwed up Doppelganger I looked through it. I doubt he'd screw that up as it's simple and important.
337 CzarTim★ 07-31-2015 03:25 AM PT (US)	"Retro would never forget a rule not in the OP the way he forgot a rule in the OP"
338 Lord of Castamere★ 07-31-2015 03:30 AM PT (US)	Maybe, but don't you think it's mildly convenient that Soriano claimed solo wolf <i>after</i> it revealed that there was a solo wolf? I just think it's funny that your jumping to believe someone who already lied to your face once. It was a reactionary lie to cover his blown lie.
339 CzarTim★ 07-31-2015 03:35 AM PT (US)	yeah sure buddy
340 nin1000 07-31-2015 03:38 AM PT (US)	I dont believe you Hornets
341 Lord of Castamere★	3 hours until voting begins. BTW Don't listen to CzarTim he's been brainwashed by the Werewolf Conspiracy.

07-31-2015 03:52 AM PT (US)	He <i>is</i> a Freemason after all. A vote with Czartim is a vote for the Illuminati. Don't support the Illuminati.
342 CzarTim★ 07-31-2015 03:56 AM PT (US)	LoC is a truther, that's way worse than being in the Illuminati. At least the Illuminati has cool sex parties.
343 Roytheone 07-31-2015 04:07 AM PT (US)	Alright, still at work so I am dodging the gaze of my boss while typing this, so don't expect any deep insights or something like that. /m310 Am am 100 % convinced you don't believe a word yourself of that story. You know that I and sawneeks speak the truth and are now desperately trying to find a way out of the cross hair. Ain't gonna work wolfie. /m318 yeah, and if you take the third letter of every post of me and sawneeks you will find out that we killed John F. Kennedy. Come on, we didn't had a secret code, I was just trying to probe sawneeks and see if she indeed was the seer that saw the middle cards, because I knew I would need some kind of backup when I came out with my claim. I think you are attaching yourself onto Fireblends bullshit because you yourself are team wolf. /m334 just to be clear hornets, you are also going to vote fireblend right? /m337 about the lone wolf thingy: that is an optional rule that some variants have and some don't. We actually talked about that rule in the first game, because there was some confusion there, and in that game the rule WAS NOT IN PLAY. So @retro: is the rule this time in play or not? Again, dont forget: - Sawneek and me claimed seer and witch, and we had 0 counter claims, the chance for this to happen if we are wolfs is incredibly low. - When I made my claim, there was 0 suspicion towards me and Sawneeks, and the focus was on the whole mason/insomniac debate. If we were wolfs, why did we draw attention to ourselves with this claim instead of just waiting it out and watch how someone from that debate was lynched? If we were wolfs THERE WAS NO REASON TO MAKE THE CLAIM, ZERO, IT WOULD BE A COMPLETELY UNNECESSARY RISK TO TAKE.
344 CzarTim★ 07-31-2015 04:13 AM PT (US)	I'd rather retro not answer that. Let LoC continue flailing.
345 Lord of Castamere★ 07-31-2015 04:18 AM PT (US)	/m343 You'd take the risk to win, or course. I don't know what went through your head when you claimed. It's a impressive impromptu lie that's clearly convinced some but not everyone. I see through it. You're a werewolf, and I'm not gonna let you win. Do not believe the Werewolfs lies everyone. Roy is leading you down a path of defeat.

	/m344 Ignorance is bliss, no?
346 kingkitty 07-31-2015 04:59 AM PT (US)	im getting on the train to work but before i go, is it possible to have two insomniacs in this game? i think i read a post somewhere in this thread that said my claim was "obviously fake". well why is it so "obviously fake"? why is my claim was "obviously fake" while robotninhornets isn't? why is his word gospel?
347 Sorian★ 07-31-2015 06:01 AM PT (US)	Just woke up and read through the thread, I'll make a few posts here just detailing my thoughts. /m346 At the time you made the claim, you were actually the third to say it. Both Hornets and I had also claimed the same thing. I have now admitted that I was lying which just leaves Hornet and you in that boat. Unless the doppelganger became an insomniac, which both of you said you were not doppelgangers, then there can only be one.
348 Fireblend 07-31-2015 06:07 AM PT (US)	Still urging people they read /m310 before casting their vote. Also, it kinda sucks that this game had few active players. I really thought it had way more potential at the beginning =/
349 Sorian★ 07-31-2015 06:10 AM PT (US)	/m310 I'm sorry Fire, I, personally, remain unconvinced. When we have to make votes like this there is never 100% certainty but the smart play will always be to vote for whichever idea needed the least amount of coincidences to occur. I'd argue that Fire is still the safest vote because it has the least amount of coincidence to the story, Nin would be the next best vote, just a little more in the coincidence vote plus you'd have to listen to me "who lied to your face already" as LoC put it. Finally the conspiracy with Roy and Sawneeks, the most coincidence by far. /m316 Also, I want to mention that I see posts like this and others. LoC went hard on trying to debunk me quick and then focused all of his attention on trying to help with the Roy/Sawneeks wolf call. He also claimed doppelganger Seer about halfway through the claims and accused someone who had not claimed yet to be minion. LoC believes that Fire is a wolf, and as the minion himself, finally has a goal of protecting someone. It was ballsy to claim doppelganger but minion is there to make those big plays because, who cares? The benefits outweigh the cons. Honestly, LoC suddenly getting so heated on this just tells me that Fire is an even smarter vote.
350 Sorian★ 07-31-2015 06:14 AM PT (US)	/m326 Piggybacking from my last post. I'm not 100% convinced you are the minion though it does seem likely to me now. But for your benefit, if you aren't team Wolf, and for everyone else's benefit: I don't know what to tell you hear. The only information I was ever given by retro was that I was a Wolf and that there was no other Wolf in play. I was never offered the chance to look at a center card. That would have been a nice advantage and probably would have allowed me to speak

	up earlier on the truth but yeah, I came into this game with a lot less information that a normal wolf would have. I do want to mention one thing. Assume we do put LoC as the minion. Where does that leave the King vs. Hornets debate? One of them is lying and it's probably worth figuring out why. Then again, if LoC is what he claims he was then it's just King lying to dissuade us from believing him as minion but why would King bother? He hasn't thrown in his hat to defend anyone so why would it matter if we think he's minion?
351 Sorian★ 07-31-2015 06:17 AM PT (US)	Oh and one last thing, I'm sorry. Do hold off on voting right at time. We may still hear from Seaths and what he says could change everything in this game. We just have no way of knowing. It's easy to say that he was a throwaway role at this point like Tanner or Villager but until he speaks up, the possibility for anything is there.
352 CzarTim★ 07-31-2015 06:23 AM PT (US)	As I stated earlier, it's possible they're both minions after LoC doppled himself as King. That play makes the most sense to me. King claiming insomniac when he thought you were the wolf fit with your claim, and now LoC is (terribly) trying to cast doubt on the witch / seer claim. It's also possible for the minion / insomniac / tanner to be some combination of LoC / King / RNH, but seath not even claiming makes him most likely to be the tanner in my mind. If Seath is town then holy shit, whichever game he's in needs to policy lynch him on day one because that's just an awful play.
353 roytheone★ 07-31-2015 06:23 AM PT (US)	/m345 the thing is that if we are wolfs, we didn't need to take that risk to win. The whole debate was around the Masons and insomniac claims. Me and sawneeks weren't suspects at all. So why would we take the risk and focus attention on us if we were wolfs???? We would have just played it safe and waited it out. You are full of shit LoC.
354 Sorian★ 07-31-2015 06:30 AM PT (US)	/m338 I thought I should post back to this one too. At this point in the game, what reason do I have to lie? It was either lay my cards on the table because I was town or go on a harder defensive with ym first lie because I thought I was still team Wolf. I couldn't have both. /m352 True, I've been operating under the assumption that teh doppelganger just got to role pick this round and didn't have to choose someone to copy. Minion seems like a terrible role pick so I threw it out but this theory could make sense as well.
355 Lord of Castamere★ 07-31-2015 06:33 AM PT (US)	The only reason I'm heated is because I don't want to lose. I know what I am, what KingKitty is, and that's it. I'm not 100% on anything else, but dead set on the Werewolf conspiracy gripping the town. I see an elaborate ruse trying to fool the town into losing. Roy and Saw have been working together from the start to undermine everything we stand for. They conspired to murder poor Fireblend. Lying about so much. It brings a tear to my eye when I see such strong players taken in by this nonsense. I hope other townsfolk can realize the true danger of Roy and Saw before it's too late.):
356 CzarTim★ 07-31-2015	Exactly. Notice how LoC is not presenting a theory where sorian lying makes sense, he's just repeating the fact that sorian is a liar. The alternate reality where roy and

06:34 AM PT (US)	saw are wolves, does not make sense in the world where sorian has no reason not to think he's the hunter.
357 Sorian★ 07-31-2015 06:36 AM PT (US)	/m87 Do keep in mind the above post. Roy claimed witch super early on. And as mentioned, did so while another obvious lie had already been pointed out. I can't think why a wolf (and in your scenario, a wolf who actually had a partner) would bother making a false claim when we were already about to do a dance over the Insomniac vs. Insomniac claim.
358 Lord of Castamere★ 07-31-2015 06:44 AM PT (US)	/m356 Fine. Sorian was always a Tanner. He claimed Werewolf because no one can dispute it, and it helps cement Firebrands death. Either way Nin won't be killed, and he's been noticeably pushing for Firebrand over Nin. Pretty straight forward.
359 CzarTim★ 07-31-2015 06:47 AM PT (US)	So swamped is lying? Or sorian is for some reason withholding that he was the tanner? that makes no sense dude, try again.
360 Lord of Castamere★ 07-31-2015 06:53 AM PT (US)	Yeah it does. Sorian was tanner and Nin was Hunter, Swamped switched them, and Sorian claims Werewolf to add another confirmation to Firebrand. What doesn't make sense about that?
361 CzarTim★ 07-31-2015 06:54 AM PT (US)	sorian would now be a hunter and have no reason to lie?
362 CzarTim★ 07-31-2015 06:55 AM PT (US)	btw I'll be sending you an invoice for my time after this LoC.
363 swamped★ 07-31-2015 06:55 AM PT (US)	If Sorian was a Tanner I don't think he'd be pushing so hard for a Fireblend vote. Also, he would try to convince us that nin1000 was a wolf to begin with. I just really love how passionate Fireblend and LoC are, almost feel bad that I'm voting for Fire lol.
364 Sorian★ 07-31-2015 06:57 AM PT (US)	/m358 Except, if I was trying to protect Nin, then why would I say I turned him into a wolf? Couldn't I have just turned him into a Tanner? And why would I be defending him anyway. If you do think swamped is telling the truth which it appears you do then it's more likely I'm team town, that's the conclusion o came to at least.
365 CzarTim★ 07-31-2015	LoC is just fucking with us. He's not this dumb.

06:58 AM PT (US)	
366 Lord of Castamere★ 07-31-2015 07:00 AM PT (US)	What did Sorian gain by claiming Wolf? The Firebrand reveal now has extra weight, and Nin1000 won't be voted for. What would Sorian have gained by claiming Tanner? Nin100 wouldn't have been voted for. If Nin1000 starts getting votes Sorian can come clean. Pretty straightforward.
367 CzarTim★ 07-31-2015 07:01 AM PT (US)	oh wow, I hadn't considered that. LoC is right guys everyone vote roy
368 CzarTim★ 07-31-2015 07:01 AM PT (US)	not
369 Lord of Castamere★ 07-31-2015 07:03 AM PT (US)	/m367 lol hypocrite
370 Sorian★ 07-31-2015 07:03 AM PT (US)	I'm a lot more confident that LoC is minion now whether by doppelganger or normal. He woke up and saw me but at this point, what he saw is highly contested. I've already proven myself as a liar from the start and at this late stage, he wants to protect both wolves the best way he can. The only way he can do that is dismiss me as a liar some more, say that Nin is tanner, then go along with Fire's crazy story.

373 Lord of Castamere★ 07-31-2015 07:08 AM PT (US)	Vote Sawneeks and win. Don't trust liars, foil the Werewolf conspiracy.
374 Soriant★ 07-31-2015 07:25 AM PT (US)	I would, again, urge everyone to wait before voting. We don't have the full picture yet and you have all day to vote, just keep it in mind. With the current knowledge, the two wolves are Nin and Fire. Again, we should consolidate to one player to make sure we keep majority and most people want Fire. Something else to note, Tim is a mason, he saw Fire. They confirmed each other and as it stands now I don't think there is any way that they were lying. Early put downs that the Tim and Fire were double wolf instead of double mason. Tim is going hard on Fire now so more reason, I think, that Fire is a safe bet.
375 Zippedpinhead 07-31-2015 07:39 AM PT (US)	I already voted. At this point, I really don't think we add anything but doubt by waiting to vote.
376 CzarTim★ 07-31-2015 07:46 AM PT (US)	I voted too. seath had plenty of time to play.
377 Lord of Castamere★ 07-31-2015 07:49 AM PT (US)	Actually, there's something I need to clear up with Nin1000 before I vote. So if he reads this, make a post please. Thank you.
378 Hornets 07-31-2015 08:23 AM PT (US)	Lord, I'll briefly humour you as a one-game teammate What do you think everyone's starting and current role is? Chances are I won't be convinced by jet fuel can't melt steel beams, but you know. Just want to see what you come up with.
379 Lord of Castamere★ 07-31-2015 08:40 AM PT (US)	A lot of coincidence was needed for this to happen, yes, but I fully believe that the Werewolves are Roy/Saw. We can't let them win. Czartim - Mason Fireblend - Mason KingKitty - Minion LoC - Doppleganger -> Seer

	Nin1000 - Hunter -> Tanner RNH - Insomniac Roytheone- Werewolf Sawneeks - Werewolf Swamped - Troublemaker -> Robber Seath - Villager Soriano - Tanner -> Hunter Zippedinhead - Robber -> Troublemaker
380 CzarTim★ 07-31-2015 08:43 AM PT (US)	not just coincidence, it would require Soriano lying for no reason. Soriano loses if we vote out fire in your scenario and he seems perfectly okay with that.
381 Soriano★ 07-31-2015 08:46 AM PT (US)	Tim kind of said it anyway but yes. /m379 In that scenario, why would I be urging everyone to vote for Fire? I mean sure, pretend I was the tanner for a minute and now that role transferred to Nin. That could be reason for me to be pushing Fire over Nin but at the end of the day, the odds are extremely high that I am town at this point. I want to kill a wolf. I gain nothing by protecting Roy/Saw over Fire or vice-versa. Anything I say at this point is because I completely believe that I am setting a wolf up to die. Edit: Edited for a confusing typo. Edited 07-31-2015 08:47 AM
382 Lord of Castamere★ 07-31-2015 08:48 AM PT (US)	Bullshit. I detailed why Soriano would lie above. He lied to gain something vs gaining nothing by telling the truth. That's probably why he wants everyone to wait for Seath. If Seath comes out as Drunk it would expose The Werewolf Conspiracy completely.
383 Soriano★ 07-31-2015 08:57 AM PT (US)	/m382 What you detailed earlier made no sense though? You said that I did what I did so that the Fire accusation would have more weight. Why do I care about giving more weight to that accusation? According to you, I'm either town or Tanner. I'm obviously not asking you all to vote for me and I haven't really done anything at end game that could suddenly get you all to dog pile on me. And if I'm town then I want to win, why support a claim that could be wrong? The only real reason I have to protect Roy/Saw is because I think you have been saying non-sense but I'm also covering everyone by urging people to wait. You're right, Seath could come in and say something that might make us need to re-think everything. I would gladly accept that. I want a right answer, not a quick answer.
384 Lord of Castamere★ 07-31-2015 09:06 AM PT (US)	/m383 You're not a Tanner anymore, I never said that. You are a town aligned Hunter who claimed Werewolf to put weight on Firebrand, and help secure a town victory. You can't be 100% with these things, of course, so Seath will confirm your gambit. You saw an opportunity and took it. A noble misguided action, as you are helping our enemy to win, but I don't blame you, I blame them. There's still time to stop this travesty, Townspeople.): Edited 07-31-2015 09:07 AM

385 Soriana★ 07-31-2015 09:12 AM PT (US)	/m384 I know you aren't actually claiming I am tanner anymore but, for the sake of leaving every possible avenue available, I always leave in the minor consideration that swamped didn't actually swap me which would still leave me Tanner to you and Wolf to the rest of us. I believe Swamped though because she would have come forward and trapped me by now if that was the case. Anyway, I 100% expect Seath to come forward (if he does) and actually throw something in that counter-claims a lot that has been said. I'm not 100% on Fire, it's impossible to be, but he is the highest odds of being wolf right now. Seath could say something that re-balances all of those odds.
386 CzarTim★ 07-31-2015 09:16 AM PT (US)	every time you make a long post, soriana, LoC is just laughing more.
387 Soriana★ 07-31-2015 09:17 AM PT (US)	/m386 His claims could be genuine, maybe he does believe what he is saying. It's fine, I find it fun and Fridays are slow at work anyway.

389 CzarTim★ 07-31-2015 09:26 AM PT (US)	with no fault placed on retro (thanks for running these games!) I just don't think this format works on the forum. We have too much time to "figure out" the game. And there are too many opportunities for the wolves to get screwed over and have no defense. Maybe it was just bad luck that both games had the wolves switched, but it feels like this setup works best when you don't have time to think things through. Edited 07-31-2015 09:28 AM

I'm surprised that it lasted this long. I'm just glad that others here helped open my eyes to the evil. I can't do this alone. I'm genuinely asking for your help. Please everyone, the Town must be saved. Edited 07-31-2015 09:30 AM
391 Soriana★ 07-31-2015 09:31 AM PT (US)	/m389 Who knows though, what if we've been duped big time and the wolves are gonna be chowing down tomorrow? I feel like this set up works well but there might be too much time devoted to discussion. I've been having fun though. It sounds like Retro wants to add more roles to each game as time goes on though? Doppelganger seemed like a good role to help with wolf defense. More roles might round things out better.
392 CzarTim★ 07-31-2015 09:31 AM PT (US)	/m389 are you trying to emulate Don Draper? because your acting is Hammy.

393 swamped★ 07-31-2015 09:33 AM PT (US)	Can't wait to see the results! I feel like in this sort of forum setup, the wolves need some card switching powers too. It would make it more challenging for town to deduce things.
394 CzarTim★ 07-31-2015 09:34 AM PT (US)	but sorian you know for a fact we aren't being duped so why even consider it.
395 Sorian★ 07-31-2015 09:34 AM PT (US)	/m390 This is my first time so maybe I missed it in the rules. Is there a Conspiracy Theorist role that involves light role playing? :P
396 Sorian★ 07-31-2015 09:36 AM PT (US)	/m394 Not quite, the only thing I know for fact is that I was wolf. If swamped switched me with Nin then I know for fact that Nin is wolf. I don't know for fact that Fire is a wolf though. Roy/Saw is ridiculous but's who's to say there isn't another possibility that we haven't latched on to.
397 Lord of Castamere★ 07-31-2015 09:38 AM PT (US)	/m394 You are being duped. All of you are. It's not too late to stop this, everyone. Just vote Sawneeks.
398 Roytheone 07-31-2015 09:40 AM PT (US)	Are you guys still arguing with LoC? Look at these posts: /m355 /m390 , it is obvious he knows he is completely fucked and going to lose, but he has decided to go down kicking and screaming to make the last few moments fun. I mean, you have to respect his commitment in a way :) Also, what has seath really done in this game? I looked back at the very few posts he made, and even those didn't tell us jack shit. I mean, if you don't want to participate in the game, then don't join or at least tell us you will be quite inactive. Very unfortunate. /m352 I think seath is in my game, so I will keep your idea about a policy lynch in mind :)
399 CzarTim★ 07-31-2015 09:41 AM PT (US)	/m396 ... but you would have seen another wolf at the start. you know the other wolf was in the center. roy stated the werewolf was card three before saw confirmed. how is this even a question lol
400 RetroMG★ 07-31-2015 09:43 AM PT (US)	I have received votes from 4/12 players so far. At 12 hours remaining, (7pm tonight,) I'll send a PM to anyone who hasn't voted.
401	/m399

Sorian★ 07-31-2015 09:45 AM PT (US)	Hey, I'm just saying there is a teeny tiny minuscule chance that someone lied for some reason. I'm confident on a Fire vote, no doubt about that. A wolf card did start in the center which nullifies most possibilities. I was just more mentioning it because I don't think the wolves are at as much of a disadvantage as you thought in your first post.
402 CzarTim★ 07-31-2015 09:48 AM PT (US)	the only possibility is roy switched himself and became a wolf, but eh. If that's the case, gg roy you deserve the win
403 Sorian★ 07-31-2015 09:51 AM PT (US)	/m402 Yeah basically, the only conclusion I could come up with as well. Which makes the call from fire and LoC to vote for Sawneeks even funnier. Still playing directly into the hand of the only real guy that created the conspiracy.
404 CzarTim★ 07-31-2015 09:52 AM PT (US)	oh I'm sure LoC thought of that before he pushed for saw. He is a minion after all.
405 Roytheone 07-31-2015 09:55 AM PT (US)	/m402, believe me, I didn't do that. I mean, why would you switch yourself as the witch? You will change into a random role without being able to do their night action, not a very good deal I would say. Switch someone else on the other hand, and you will have some extra information about someone, a much better starting position.
406 Lord of Castamere★ 07-31-2015 09:57 AM PT (US)	/m398 i'm not going to. I know the town will come to the same conclusion I did. They will see the truth and the Town will emerge victorious. Recap: Roy and Sawneeks have lied to you the entire game, performing an elaborate lie to trick the town. Several misguided players have attached themselves to this lie, some even lying to support it. Thankfully, some of us have seen through the ruse, and need your help to stop it. Vote Sawneeks for a Town victory.
407 Sorian★ 07-31-2015 09:58 AM PT (US)	/m405 If witch came after troublemaker, I would 100% switch a center card for myself. I feel like going into the game knowing exactly what you are is a huge boon. But yeah, with troublemaker in the way, there is a small chance someone can mess you up right after your action which diminishes the possible reward.
408 swamped★ 07-31-2015 10:24 AM PT (US)	LoC - you may have mentioned it, but why not vote for Roy? Why Sawneeks over Roy?
409 Lord of Castamere★ 07-31-2015 10:29 AM PT (US)	No reason to go against Fireblend, to vote for Roy. If either of them are lynched Town wins, as both are Werewolves. A vote for Sawneeks is a vote for Victory.
410	No reason to go against the word of the alpha wolf. Roy was the smarter person for

Sorian★ 07-31-2015 10:30 AM PT (US)	Team Wolf to throw under the bus but LoC had to follow Fire's example. My guess.
411 Roytheone 07-31-2015 10:47 AM PT (US)	Alright, I saw that some people wondered why I waited as long as I did with my action claim, and here are the most important reasons: - Obviously I wanted to wait until I was certain that I wasn't switched and somehow now on team wolf. If that was the case, I would have to lie about who I made a wolf. - I knew that as soon as I made the action claim, team wolf members would immediately know I was speaking the truth (they know there was a wolf in the middle because they only saw one during the night phase) and try to attack me. So I needed someone to back me up: enter Sawneeks. As the seer she could confirm my claim, but I first had to make sure she was indeed the seer and looked at the center cards. Therefore I started to probe her and see how she would respond to me, and after I was convinced she indeed knew the importance of card 3 I was satisfied. - I wanted the original wolf and minion to be very deep in their attempts to make the most of the mason/insomniac situation. That way it would be painfully obvious when they suddenly changed their story and tactics to try and rescue their new wolf brother fireblend. - Fireblend was incredibly active in hunting down the original wolf, making helpful overviews etc. So I can't deny there was a certain devilish enjoyment in watching fire try his best to hunt down the wolf.....while I knew he was just digging his own grave and heading for unavoidable doom.
412 Lord of Castamere★ 07-31-2015 10:47 AM PT (US)	/m410 You guessed incorrectly, which isn't surprising. Fireblend showed me the truth. Surrounded by lies. Not that it's news to you. You are a Lie.
413 Sorian★ 07-31-2015 10:50 AM PT (US)	/m411 That last bullet point, what a meanie.
414 Sawneeks★ 07-31-2015 11:58 AM PT (US)	http://i.imgur.com/k3G7MrG.jpg
415 Lord of Castamere★ 07-31-2015 12:08 PM PT (US)	I just want what's best for the Town. No lies, only Victory. I firmly believe that Roy and Sawneeks are Werewolves. As unbelievable as it sound this is the reality of the situation. We need to band together to survive the conspiracy. We need solidarity to win. I want us to win. Help us win.

417 Soriana★ 07-31-2015 02:25 PM PT (US)	I would just like to say that I've officially cast my vote. Sorry LoC and Fire but I, obviously, remained unconvinced.
418 RetroMG★ 07-31-2015 02:30 PM PT (US)	Eight out of Twelve players have now voted. Edited 07-31-2015 02:30 PM
419 roytheone★ 07-31-2015 02:41 PM PT (US)	/m417 I voted for fire hours ago, but that shouldn't be a surprise to anyone.
420 kingkitty 07-31-2015 04:02 PM PT (US)	sorry can't type much i'm on a train to azkaban. but i just want to say that i have reasons to believe roytheone is not a witch. in fact, it's quite the opposite. roytheone is a werewolf.
421 Soriana★ 07-31-2015 04:25 PM PT (US)	Lol here we go. Most votes are locked anyway but would it make sense for LoC to be doppelminion and King be regular minion? Was there a good play somewhere for LoC to give up another minion? Wondering what kind of information King could possibly have to share.
422 Zipped 07-31-2015 04:57 PM PT (US)	I was so confident in the fire vote that I voted yesterday
423 swamped★ 07-31-2015 05:24 PM PT (US)	Ugh I'm still good with my Fireblend vote, but I really ought to have voted for nin1000, just that I didn't think he would get a majority...(also I'd feel bad voting for him twice lol. I'm not out to get you nin, honest).
424 Seath 07-31-2015 06:09 PM PT (US)	Ugh I keep forgetting about this game...
425 Seath 07-31-2015 06:11 PM PT (US)	Alright so I'm neutral, whatever that means, according to my role. I'm wary of Roy because reading through his posts, he seems to go back and forth. Almost like he's trying to cause something...
426 Seath 07-31-2015	But on second thought I don't think a werewolf would post that much risking making a mistake.

06:11 PM PT (US)	
427 Sorian★ 07-31-2015 06:16 PM PT (US)	So seath, what is your role?
428 Seath 07-31-2015 08:17 PM PT (US)	Villager, neutral. I win either way as long as I don't get killed.
429 Sorian★ 07-31-2015 08:28 PM PT (US)	Well, not really, you only win if we kill a wolf. Not sure where you are getting neutral from.
430 Fireblend 07-31-2015 08:58 PM PT (US)	Hey. I'd like to apologize for my lack of activity today, it was a crazy day at work. But eh, I said all I had to say so it's not that bad. Anyway, great game everyone. And again, I wish some of the participants had been more active; it felt like 6 people were playing, not 12.

446 Lord of Castamere★ 08-01-2015 02:20 AM PT (US)	It'll be even more confusing in 5 hours. Sadly the Werewolfs are going to win I think.
447 CzarTim★ 08-01-2015 02:21 AM PT (US)	nin you are 100% a werewolf. there's a chance roy or fire is a werewolf, therefore you should have voted for saw who cannot be a werewolf. Easy!

450 nin1000 08-01-2015 02:27 AM PT (US)	haha, at least the catfights are the same as in the main game :D but how the hell do you think i am wolf ? did i get switched by a bad person ? sorry but it was too exhausting to read through all that chat :(
451 CzarTim★ 08-01-2015 02:28 AM PT (US)	yeah i agree. who wants to actually play the game we signed up for
452 Roytheone 08-01-2015 02:30 AM PT (US)	/m423 Don't worry, you made the right choice. Even if nin1000 turns out to be a wolf (and I think the chance for that is pretty big), a vote for him will STILL be in favor of team wolf. Team wolf seems to focus their votes all on sawneeks, so if we townies were to split our votes between fire and nin, that would be bad for us. We have to focus our votes on one or the other to have the most chance on a majority, so we all should vote fireblend, even if nin1000 is indeed also a wolf. /m425 kinda hard to explain my reasoning if you don't point me to a specific post that shows your point, because I don't really get what you mean. /m444 Don't feel bad when you and your fellow team wolf members lose. At least 2 of the probably 4 members of team wolf didn't knew they were team wolf until quite late in the game, that is an incredibly hard situation to get a win out off. /m446 I am REALLY looking forward to your posts in the post-game wrap-up!
453 nin1000 08-01-2015 02:39 AM PT (US)	dont be mean CzarTim ^^ thanks for the information Roy, thats what i wanted to see from a good player !

455 CzarTim★ 08-01-2015 02:49 AM PT (US)	Yeah LoC has been 100% dead on this game. Everyone should do what he says.
456 Roytheone 08-01-2015 02:49 AM PT (US)	/m453 NP, I am kinda sad you are probably going to lose again. I mean, you partly lost the first game because I was TERRIBLE as your minion and now you are going to lose because I outed your wolf buddy. I will have made you lose two times in a row :(However, I do partially agree with CzarTim, if you decide to join these games, you kinda have the obligation to keep up with the chat. If you don't have the time or will to do so, you shouldn't join. BTW, does someone know what is going on with kitty? he made this post half a day ago: /m420 , only to say NOTHING afterwards, zip. The game is almost over, if you have reason/proof that I am a wolf, then why in gods name don't you present it right away? He is probably team wolf so his reasons are bullshit, but he doesn't even try to convince people with a lie, he just doesn't post ANYTHING. Why????
457 Lord of Castamere★ 08-01-2015 02:52 AM PT (US)	I am nothing but sincere. All I wanted was the town to win.): Sad day for the goodfolks of Game 2. It's not too late for those who haven't voted. End The Tyranny of Roy by voting Sawneeks.

514 Sorian★ 08-01-2015 07:04 AM PT (US)	I did what I had to do based on the information I had gathered. I was only going to realistically be able to change my claim once before people would stop listening to me and I still couldn't be sure that Swamped was playing some high level mental games to get me to reveal something interesting. I either had to tell the truth and claim Tanner or lie and claim Werewolf. I was fairly certain a card in the center was wolf so me lying and claiming Wolf was effectively the same as claiming Tanner except, I knew that if Swamped tried to trick me then I would have had no defense for my werewolf claim and you all would have killed a tanner. Edit: Very happy that no one believed LoC when it came to that rule about viewing a center card. I'm a mafia noob and had no idea that was a thing. Edited 08-01-2015 07:06 AM

518 Soriant★ 08-01-2015 07:09 AM PT (US)	/m516 Of course you did, you were the actual sole werewolf so of course you'd know it wasn't me. I couldn't really contest you though since I had to keep up appearances.
519 RetroMG★ 08-01-2015 07:09 AM PT (US)	/m514 What rule is this?
520 CzarTim★ 08-01-2015 07:10 AM PT (US)	Soriant that was a truly awful play. Like I'd understand doing that at first to bait swamped, but once voting started there was no reason to think she was still lying.
521 Soriant★ 08-01-2015 07:10 AM PT (US)	/m519 Lone werewolf gets to view a center card. It looks like LoC did see a center card and I don't think that was ever mentioned in the rules at the beginning.
522 Soriant★ 08-01-2015 07:11 AM PT (US)	/m520 Except, Nin had only posted once and we hadn't gotten much information from him at all. I didn't really know if I was town or not.
523 Lord of Castamere★ 08-01-2015 07:12 AM PT (US)	/m520 Not to mention, if anyone believed me about Soriant lying it undermined the Fireblend story.
524 Soriant★ 08-01-2015 07:14 AM PT (US)	/m523 This too. I knew Nin was Tanner which meant I had to push hard for Fire because Nin getting voted was definitely a loss for me in any situation. If I was viewed as a consistent liar, more people might have jumped away from Fire to Nin. Someone even said last night that they regretted voting Fire instead of Nin.

525 CzarTim★ 08-01-2015 07:14 AM PT (US)	/m522 either you could be tanner, in which case your play didn't get votes on you, or you could be town and risked a last minute nin vote (which was a safer vote based on the info we had) either way you could have lost the game
526 Lord of Castamere★ 08-01-2015 07:16 AM PT (US)	Not that it matters. Assuming my Minion was in play we needed 3 extra votes to win (Fireblend, KK, LoC, Minion). I was planning to reveal before Nin1000 posted. Reveal as a Minion and confirm Sorians story, but that didn't pan out.
527 CzarTim★ 08-01-2015 07:17 AM PT (US)	/m524 we should have voted for nin because there was less of a reason for you to lie than roy. there was no reason not to come clean.
528 Soriant★ 08-01-2015 07:18 AM PT (US)	If I was still Tanner then that means Swamped lied, if she exposed that lie then me claiming Wolf means a lot of you would have voted for me. If I did get switched then I was either Hunter if Nin was telling the truth or Team Wolf if Nin was lying. At the end of the day, the only two good theories were Fire as Werewolf or Roy + Sawneeks as Werewolf. I was in a position to push you all into a vote so I went with what was best.
529 CzarTim★ 08-01-2015 07:20 AM PT (US)	eh, I mean it all worked out so whatever Edited 08-01-2015 07:20 AM
530 Soriant★ 08-01-2015 07:21 AM PT (US)	/m527 You're levelheaded, that's good but if I did a third reveal and said "jk, I was actually Tanner!" do you really think people would have believed me anymore and gone along with anything I had said prior. LoC was already basing everything on me lying, if I come out and he's right, people might have started listening to that non-sense. Edit: At the end of the day, I was way more confident that Fire was a good vote once I realized that LoC was probably the actual lone werewolf that I was pretending to be. He couldn't call me out directly so he had to keep going for roundabout jabs but he was so sure of himself and he was spot on with so many guesses. Edited 08-01-2015 07:22 AM
531 RetroMG★ 08-01-2015 07:21 AM PT (US)	All right. I'm awake. To those asking about changing votes: No, I'm sorry. The rules were very clear. At this point if I allow it I will have to extend the day and offer it to everyone, and I'm not going to do that. I am not, however, going to post voting results, so feel free to lie to one another about how you voted. ;) @Soriant - The Lone Wolf rule is a real thing, and you're right, I should have

their own at the stake. Fireblend's voice is heard from the center of the mob, crying, "No! It's not me! I'm not a wolf! I'm one of you! I swear!"

As the flames reach higher, the fire turns green and sparks fly into the air. As though some magic spell has triggered a metamorphosis, Fireblend's screams turn into anguished howls.

At the rear of the mob, Lord of Castamere looks around nervously. He turns to Kingkitty, and quietly says, "We'd better get out of here while they aren't looking." Seath turns, sees the pair leaving, and quietly turns to follow his masters.

As the trio skulks off into the darkness, Kingkitty's form shifts and changes...

Post Game Notes

Hey everyone! Thanks for participating in Game 2. We're still ironing out the kinks in this whole ONUW setup, but I hope you'll join in for Game 3!
...whenever that is.

If I die early enough in Mafia Season 3 and if there is interest, I'll be hosting ONUW games during the season. (That does not mean you should kill me to make the new games come faster, or keep me alive to keep them away. Lol)

Here are some author's notes from this game:

The Doppelganger

I've accepted that every ONUW game is going to have a major curveball that I'm going to totally whiff on, and this game's curveball was the Doppelganger. The Doppelganger's role is that he is able to look at another player's card, and become that player's role. In an effort to make it simple, another player suggested that I give the Doppelganger the possible roles, and have him give an input for each of the roles based on what he received. This would enable the doppelganger's night actions to be done in a single PM.

I completely misunderstood this suggestion and did things very differently. I gave Kingkitty a list of roles and actions, and told him to submit the role he wanted and the action. He chose to become a wolf. I have no idea why.

(I should note that Kingkitty was not allowed to become a Minion or a Villager, because why be a minion when you can be a wolf, and why choose to be a villager at all?)

In the future, we're going to do the Doppelganger role right. I'm going to let the Doppel pick a player, and then tell the Doppel what the role is, and let them submit an action. Is it more work and more time? Yes, but I also think it's the only way to do things fairly. It also saves me from writing an entire book for the Doppel's night action, and save the player from writing out fifteen (or however many) role actions.

The Lone Wolf

You might see in the Chain of Events that LoC was allowed to look at a card in the center. This is called the Lone Wolf variant, and it comes into play when there is only one werewolf assigned to a player.

"But wait," I hear you say, "If Kingkitty doppelged the Werewolf role, Castamere wouldn't be the only wolf!"

That's true. The problem here is that I had already sent out Castamere's role PM saying that because he was the only wolf, he could look at a center card. (I've traditionally sent all of the werewolf info in the initial role PM.) And in turn, he'd given me an input to see what was under Card 3.

Could I have told him that he no longer had that ability? Sure, and I almost did. But

	I saw that the Seer knew what card 3 was, and I saw that roytheone had swapped card 3, making Fireblend a wolf. The wolves suddenly looked like they were about to have a really bad day. So, in this one case, I let Castamere know about Card 3, to give him a (very) slight head start on the coming storm. I didn't know if that knowledge would help him at all, (it didn't) but I thought it seemed fair. In the future, Werewolves will be told that they are werewolves in the initial PM, but will not be told who the other wolves are until I have heard from the Doppelganger. Same goes for the Minion. It's more work, but it's fairer that way. Feedback I would love to hear any feedback on this season. There were a few bumps along the way, which I'll try to sort out whenever we do Game 3. Time was a big issue for this game. We were ready to go really early, but I didn't want to mess with the timeline after Game 1, but I was also feeling the pressure to not hold up Mafia season 3. Eventually I just decided to run with it. I think the Day phase was just about right, but the night phase will be shortened for next game. Anyway, please let me know what you think. Your humble host, Retro Edited 08-01-2015 07:34 AM

554 Sorian★ 08-01-2015 07:36 AM PT (US)	/m552 LoC putting in that work lol All's well that ends well.
555 CzarTim★ 08-01-2015 07:36 AM PT (US)	Yah LoC had zero help from the rest of the wolf team (except a little from fire who had to be very confused) so kudos once again
556 RetroMG★ 08-01-2015 07:38 AM PT (US)	All right, info on the Lone Wolf Variant will now be in the role info for Game 3.
557 roytheone 08-01-2015 07:40 AM PT (US)	Yeah, I have to give LoC some props too. He made a ridiculous last ditch effort by supporting fireblend's absolutely crazy theory while he knew it was almost an unwindable situation, and did it with such conviction and flavor that it made the final moments of this game fun! Also, I am going to change my GAF name to Roy The Terrible now :) Edited 08-01-2015 07:42 AM
558 Fireblend 08-01-2015 07:43 AM PT (US)	Good game everyone :) it's time to focus on the season-long Mafia games, but I look forward to doing ONUW again.
559 RetroMG★ 08-01-2015 07:46 AM PT (US)	Thanks, Fireblend! It's always nice to hear that people want to keep playing. :)

560 Lord of Castamere★ 08-01-2015 07:47 AM PT (US)	Great game. It was certainly fun. I like this format a little better. Not having a Day 2 allows a "all cards on the table" approach. Attention didn't matter once Fireblend was outed because is was all or nothing at that point.
561 RetroMG★ 08-01-2015 07:49 AM PT (US)	I felt bad for Fireblend while I was doing the night actions. Seemed like half the players knew what card 3 was, and here comes Roy to give it to Fireblend. lol
562 CzarTim★ 08-01-2015 07:51 AM PT (US)	fire would have had an easier time convincing everyone roy was the witch and made himself the wolf. might have believed that
563 Fireblend 08-01-2015 07:52 AM PT (US)	Yeah, I think if anyone read both ONUW games so far they'd think the game is heavily biased in favor of the town, but in reality both games have been decided by some serious coincidences going on during the night phase, hah.
564 Sorian★ 08-01-2015 07:56 AM PT (US)	I didn't watch a lot of ONUW 1 but it sounds like something similar happened. I felt bad for you Fire, that victim of circumstance. Everyone happened to look at card 3 too if they had the chance. Crazy luck.
565 Zipped 08-01-2015 07:57 AM PT (US)	GOod Game everyone, sorry I couldn't posting yesterday, but I knew going in it would be a rough Friday at work. Roytheone and sawn eels played very well and lord did what he could. Seath your tanner play was very good, and in a ten minute live game may have worked. It's just rough that you got switched and were no longer the tanner
566 Lord of Castamere★ 08-01-2015 07:59 AM PT (US)	Yeah it sucks. We almost did it though. If I could have gotten to Nin in time we probably would have tied. I wish. It would have been so satisfying to bring Sawneeks down with me. Screw the Town.
567 roytheone 08-01-2015 07:59 AM PT (US)	BTW fireblend, if you are wondering why I had picked you to switch: you are the only one from game 1 that voted for Barry that was also in game 2. So naturally, if you give me the option to mess with somebody, I am going to pick the person that contributed to me losing the first game ;) Of course, I didn't know I would make you a wolf, that was just pure luck.
568 Hornets 08-01-2015 08:29 AM PT (US)	LoC, you may not have won but you did well. I had no idea you were actually a wolf, I was convinced it was Fire and nin
569	Wait, LoC was a wolf the whole time?? I was convinced it was Nin and Fire with

Sawneeks 08-01-2015 10:30 AM PT (US)	Kitty being the Minion. Serious props to you LoC, if it hadn't have been for Roy switching card 3 you guys would have probably won. But hey, good game everyone! And thank you again for hosting everything Retro, the game still has an issue or two to iron out but I still had a lot of fun. If time permits I would love to join another game if you put one together! @Roy, What do I have to say other than holy shit what a team play. I said it earlier but I was so excited when you said you switched card 3. Everything went from "okay this kind of works" to "we pretty much got this".
570 Sorian★ 08-01-2015 11:27 AM PT (US)	LoC, you're welcome for that inadvertent cover-up for you :P
571 Roytheone 08-01-2015 11:42 AM PT (US)	/m569 No problem, I was honored to be part of this great partnership I think it is actually a good thing we two aren't in each others main games, because I would immediately trust you more than other people without any real reason simply because of the events in this game :)
572 kingkitty 08-01-2015 12:53 PM PT (US)	I guess I misunderstood the rules and assumed the wolf team would always know who the other wolf members were, so I didn't think to actually help fireblend. Once Castamere made the plan to make me look like a minion, I made a bad claim to make people convinced of my minion role, and help "confirm" castamere. And then I just sort of pretended to be busy on a train all the time. If only that witch didn't screw things up! Anyways, I think we did a great job, I'm probably mvp. Edited 08-01-2015 12:55 PM
573 Sawneeks★ 08-01-2015 12:56 PM PT (US)	/m571 Beautiful. Keep those team strategies for the next ONUW, unless you end up as a dirty Wolf. :p
574 roytheone★ 08-01-2015 01:10 PM PT (US)	/m572 I actually wanted to ask you multiple times if the train you were on was going to the moon or something like that, because you were on it for like a week ;) /m571 in order to play more ONUW games soon, I will first have to die in my main game, and I ain't going down so quick!!!! BTW @retro, any chance we can see the final vote results? I am curious how close it was. Edited 08-01-2015 01:10 PM

577 RetroMG★ 08-01-2015 07:58 PM PT (US)	@Roy - I'm not going to give out the final results for this game, but it wasn't close. I could have let everyone who asked change their votes, and Fireblend still would have been executed. Edited 08-01-2015 08:00 PM
578 Roytheone 08-02-2015 02:06 AM PT (US)	/m577 Alright, thanks for the info anyway Retro, and thanks for hosting these games! The only thing left for me now is to wish everyone a lot of luck in their main games, I seem to be the only one of this group in my main game (unless you count Seath, but calling him "part" of this game is kinda generous, sorry Seath), so hopefully it will take a long, good while until we see each other again in the death thread :)
